1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

As school sites began to settle into their established arts programming, students, staff and community deepened their understanding of high-quality arts programming. PVSD continued to refine and expand a robust Arts Master Plan in 2025–2026. This collective effort advanced our mission of Orchestrating Opportunities for Creativity by deepening access, increasing consistency, and creating more opportunities for students to experience, create, and excel in the arts. Across sites various arts domains were brought into focus as we onboarded new support staff and community partners. In the 2025-2026 school year, all arts staff finalized scope and sequence documents solidifying articulated, standards-based arts instruction with collaboration across the district. Music remains a cornerstone of PVSD's art programming reaching all campuses. Though the type of music varies from general music via ukelele, to mariachi and percussion electives, students at all sites at all age levels have exposure to music instruction and opportunities for music to support academics. Visual arts were expended in 25-26 through establishment of community connections to bring in programs using art to explore self, art for self-expression and visual arts to engage and have fun! Visual art touched many expanded programs such as after school programming, preschool and more. Teachers implemented expanded units exploring visual arts standards in the classroom and families came alongside them to celebrate the many successes experienced. Theater and dance arts continue to bring additional outlets at some sites and provide healthy outlets for increased school engagement. Sites are looking forward to a review of programming in 26-27 to further refine our excellent arts programs.
