Description of the activities:

Tennis Viktory School	Dynamic sport that develops coordination, concentration, and agility, while students learn technique and enjoy the game in an active and healthy environment. Required materials: sportswear, racket, and specific tennis shoes (mandatory to participate in the activity).
Padel Viktory School	Dynamic sport that develops coordination, concentration, and agility, while students learn technique and enjoy the game in an active and healthy environment. Required materials: sportswear, sports shoes, and racket.
Basketball	Children learn dribbling skills, defensive footwork, defensive positioning without using hands, ball control, 3x3 and 1x1 play. Required materials: sportswear and sports shoes.
Baby Gym	Early stimulation program. Children work on their motor skills, as well as cognitive and emotional development, helping to enhance and improve their individual abilities. Required materials: sportswear and sports shoes.
Rhythmic Gymnastics	Children learn floor exercises, flexibility, mastery of different apparatus, and choreographies. Required materials: comfortable clothing (leotard/leggings) and hair tied back.
Judo	Introduction to judo through games and basic techniques. Children develop fundamental psychomotor skills such as jumping, crawling, lateral movement, and climbing, while also fostering socialization and group cohesion. Required materials: sportswear; bringing a judogi is recommended.
Swimming	Classes to improve swimming strokes and develop aquatic skills (diving, turns, jumps, and floating), promoting confidence and safety in the water. Required materials: swimsuit, swim cap, goggles, flip-flops, and towel.
Artistic swimming	It is a discipline that combines swimming, gymnastics, and dance. Children perform a series of coordinated movements in the water, following the rhythm of the music. Required materials: swimsuit, swim cap, nose clip, flip-flops, and towel.
Football	Children learn the different fundamentals of football. Values are promoted, and basic sport-specific coordination skills are developed. Required materials: sports clothing and sports shoes.
Fencing NEW	Introduction to the art of sword fighting, where reflexes, coordination, and strategy are developed in a safe and dynamic environment. Required materials: during the first term the teacher provides the equipment; afterwards, families will need to purchase it.
Golf	A sport that combines technique, concentration, and precision, allowing students to enjoy the outdoors while progressively developing coordination and self-control. Classes will take place at the La Cortinada pitch and putt course. After each session, parents must pick up their children at the course itself. Required materials: sportswear and golf equipment. Activity available in the 1st and 3rd term.
Yoga & Mindfulness	Dynamic classes in which we work on strength, flexibility, and balance through the body—qualities that are reflected in the mind. We practice pranayama (breathing exercises) and meditation, exploring our inner world and getting to know ourselves better. Required materials: comfortable clothing.
Roda Polo NEW	An innovative sport that combines balance, teamwork, and fun, moving on an electric wheel as an introduction to polo. It will be practiced in the outdoor playground. Required equipment: helmet, protective gear, and sports shoes. The mallet and electric wheel will be provided (1st term).
Drama	It is a theatre program taught in English that includes drama games, role-play, and script work, culminating in a performance of the chosen play. Required materials: comfortable clothing. Annual enrollment is required.
Ballet Classique	Classes are taught in English. In this activity, students will begin learning the basic steps of ballet such as demi-plié, sautés, skips, gallops, tendus, corners, and simple choreographies. Required materials: hair tied back, elastic tights, and ballet shoes.
Urban Dance	A dynamic and creative activity that introduces students to modern dance styles, improving coordination, body expression, and teamwork to the rhythm of contemporary music. Required materials: comfortable clothing for dancing.

Description of the activities:

B2 First, C1 Advanced	Preparation for the official Cambridge English B2 and C1 exams. Annual enrollment is required.
DELF	Preparation for official French exams. Annual enrollment is required.
Violin	Musical activity that introduces students to learning the violin, developing listening skills, coordination, and artistic sensitivity through both individual and group practice. Required materials: the student must bring their own violin.
Guitar	Musical activity that allows students to begin learning the guitar, developing a sense of rhythm, coordination, and musical expression in a progressive and enjoyable way. Required materials: students must bring their own guitar.
Piano	Through dynamic and playful classes, students will learn to read sheet music and play the king of musical instruments: the piano. Required materials: a notebook with staff lines and a pencil. The school provides the instrument for the classes.
Art	The aim of this class is to provide an experimental space in which creativity is developed through all artistic techniques, including art therapy. Required material: one A4 spiral-bound sketchbook with 130 g paper.
Digital Art	Through this activity, we will learn to create digital illustrations using the Procreate app on an iPad. From the first sketch to the final illustration, students will work with their own drawings or ideas, exploring the entire process: digitization, sketching, coloring, and finishing touches. Required materials: iPad with the Procreate app installed (€14.99 one-time purchase), digital pen, and basic drawing skills.
3D Makers Club <i>NEW</i>	Innovation club in which students design and create objects using 3D technology, fostering creativity and technological thinking. Required materials: personal computer / iPad. Mandatory enrollment fee: €40.
Cooklab Kids <i>NEW</i>	Creative cooking space where students experiment, learn recipes, and develop healthy habits and culinary independence.
Think about Sciences	This project was created with the idea of bringing science closer to all children in an engaging, fun, and hands-on way. The main objective of this extracurricular activity is to encourage curiosity and introduce the laws of Physics and Chemistry through play and experimentation.
Robotics	Children are introduced to the world of technology, robotics, and programming. We use different robot platforms and applications to learn how to build and program them. We also work on coding using various apps.
Coding Club	Children will learn tools and languages such as Scratch, HTML, CSS, Minecraft, Micro:bit, Raspberry Pi, Sonic Pi, JavaScript, and Python through fun games and challenges. Let's get creative digitally!
Introduction to the Stock Market	Activity focused on learning how to invest as a way to generate wealth, one of the main paths to achieving financial independence. Students will discover that it is not necessary to have advanced knowledge, but rather curiosity, self-awareness, and patience. Interest in economic learning will be encouraged in a practical and accessible way. Mandatory annual enrollment and recommended reading: <i>"The Little Book That Still Beats the Market"</i> by Joel Greenblatt.
Fast Typing <i>NEW</i>	Workshop to improve typing speed and accuracy, enhancing key digital skills in a practical and engaging way. Required materials: students must bring their own laptop. Mandatory enrollment fee: €30, which includes a special keyboard and a backpack.
Suport classes	Group classes are offered in core subjects (minimum of 3 students enrolled), lasting 1 hour and 30 minutes. Subjects include: Spanish Language (Secondary–Baccalaureate), English (Secondary–Baccalaureate), and Mathematics (Secondary–Baccalaureate). There is also the option to request individual tutoring classes.
