MEDICINE

GOLISANO
CHILDREN'S HOSPITAL

ROCHESTER
REGIONAL HEALTH

Quality care. Right at school.

Your child can now get quality medical care from a provider right at the **school health office**—no rushing out of work or scrambling for appointments. A trusted provider can look in their ears and throat, listen to their lungs and heart, and more, just like an in-person visit.

- ✓ **A technician can come out to:** swab for viruses, fungus, or strep and can flush wax or foreign bodies out of ears.
- ✓ **Can be seen for acute issues no matter where their medical home is.**
- ✓ **Similar to urgent care, but they don't have to take their child in and wait.**

PEACE OF MIND

Better care access at a comfortable, familiar location for your child

SAVES TIME

Fewer trips to the clinic, ER, and urgent care

ACCESSIBLE

Same cost as an in-person provider visit

CONVENIENT

No last-minute pickups, no missed work

HOW IT WORKS:

1. ENROLL

Parent provides verbal consent for the visit. Consent forms will be sent home to review and return.

2. VISIT

Visit is conducted at school by the nurse or technician using TytoCare's remote physical exams. Provider calls parent to discuss the visit.

3. DIAGNOSIS

A trusted provider reviews the exam data and provides a diagnosis, prescription, or sends your child back to class if appropriate.

CONVENIENT CARE FOR COMMON HEALTH NEEDS

Ear infections

Sore throats

Runny nose or nasal congestion
