Toddler 1: A Day in the Life

Ursuline's Reggio Emilia approach encourages self-directed, experiential learning in nurturing, relationship-driven environments. In Toddler 1, children build a foundation of respect, responsibility, independence, and community through exploration, discovery, and meaningful relationships.

Our day begins with drop-off at 7 a.m., allowing children to arrive according to their individual home routines. We then come together for our morning gathering, where we start the day with prayer, songs, and storytime.

Days are filled with opportunities to explore and learn through play, art, music, foreign language, P.E., and hands-on experiences in our Tinker Lab. Children spend time on the playground building friendships, using their imaginations, and developing new skills. Bible stories and faith formation are also woven throughout our day and at our Family Chapel.

All children enjoy our school-provided lunch program, with healthy snacks and family-style meals that encourage independence as they practice using utensils and drinking from regular cups. Lunchtime is also an exciting milestone as our toddlers transition from high chairs to tables and chairs, building confidence and independence during mealtimes.

After a busy morning of learning and exploring, our toddlers enjoy nap time before waking for an afternoon snack and preparing for dismissal between 3:00 and 5:30 p.m. Through experiences and caring relationships, we support each child as they grow into confident, capable, and joyful learners.
