

Model Schools

The Model Schools Program is a statewide initiative that partners with school districts to support meaningful, sustainable integration of instructional technology. Our Educational Technology Coaches (ETCs) work alongside district leaders and teachers to identify needs, develop practical solutions, build educator capacity, and bring innovative ideas into the classroom.

Educational Technology Coaches are The ❤️ of Model Schools

- Educational Technology Coaches (ETCs) are current New York State certified teachers.
- They are experts in the use of technology in teaching and learning.
- They model/teach how to integrate technology into the curriculum to support the New York State Learning Standards including the new Computer Science & Digital Fluency Standards
- They support teachers in becoming digital age educators using the ISTE Standards.
- They specialize in providing customized professional development in workshop and job embedded push-in formats.
- They are a valuable resource to support your technology and professional development plans.

Model Schools Member Benefits

- Support with technology integration, AI, digital fluency, STEAM, robotics, drones, and emerging technologies.
- Technology planning, implementation support, district-to-district networking, and guidance aligned to district goals.
- Access to loanable equipment, regional learning opportunities, pilot initiatives, and additional member resources
- Discounted Rate for LILIE Courses
- Purchase Educational Technology through the RIC

Ways to use Model School Days

- On-site, job-embedded support through coaching, modeling, workshops, and collaborative planning
- Customized professional learning aligned to district goals and instructional needs
- Co-teaching and collaborative lesson design to integrate technology into instruction
- Modeling effective technology integration through lessons with students and staff
- Creation of digital resources and instructional materials to support teaching and learning
- Office hours and Q&A sessions for ongoing staff support
- Support for district technology initiatives and implementation of instructional technology goals
