Signature Programs

Mayfield Intensive Courses

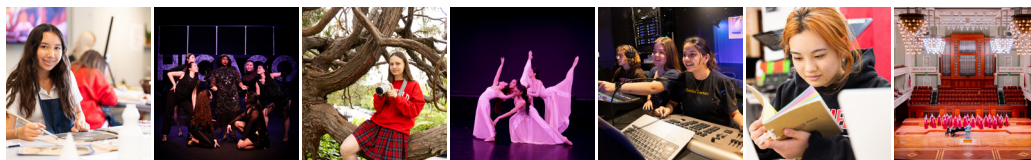

Mayfield Intensive courses are our most academically rigorous courses. They offer a "beyond AP" curriculum that enables students to deepen their learning and challenge themselves after completing an AP course in the discipline. Mayfield Intensives are currently offered in the Social Science (Political Economy) and Fine Arts (Studio Art) departments.

Pathways Program [starting with the Class of 2029]

In this three-year, application-only program beginning in sophomore year, Pathways Scholars develop specialized knowledge, professional skills, and leadership experience through a combination of advanced coursework, research, real-world learning, and mentorship from industry experts in high-demand fields. Successful completion is recognized with a Pathways Scholar designation on the student's transcript and diploma. Our inaugural cohort in the Class of 2029 chose one of two Pathways: Global Society & Data or Women & Finance.

Conservatory for the Arts

The Conservatory for the Arts is a dynamic after-school program for students pursuing the arts beyond the traditional arts curriculum and at an advanced level. Conservatories are offered in dance, technical theatre, theatre, vocal music, studio art, photography, and creative writing. Offered on a trimester schedule, this allows students to participate in both the arts and athletics depending on their interests and schedules.

Advanced Course Offerings

To encourage well-being in support of the school's philosophy, AP courses are not available freshman year, juniors can take up to three, and seniors can take up to four with approval. All students enrolled in an AP class must take the exam. The most APs any member of the Class of 2027 will complete is nine.
