

FLUSHING

COMMUNITY SCHOOLS

August 28, 2026

In accordance with [Section 164k\(e\)](#) of the State School Aid Act, Flushing Community Schools is issuing this notice regarding its K–5 literacy curriculum.

The district uses CKLA and UFLI for Kdg-2nd grade. Both curriculums are included on the Michigan Department of Education (MDE) Recommended Literacy Materials List. Under Section 164k(e). The district's current 3rd-5th grade literacy curriculum, Wonders 2020, is not included on the MDE Recommended Literacy Materials List. Under Section 164k(e), curricula not included on this list are not designated by MDE as “evidence-based or aligned to state standards” through the recommended list process. Importantly, inclusion on the MDE list is not the **only** measure of curriculum quality or alignment, and [MDE guidance](#) does not require districts to select a curriculum from the published list. The list is not exhaustive and represents one method for demonstrating alignment.

Flushing Community Schools adopted Wonders 2020 following a local curriculum review process. EdReports independently reviewed Wonders 2020 and found the grades 3–5 materials to meet expectations in all three review gateways: text quality and complexity, building knowledge, and usability. The review also found strong alignment in foundational skills, vocabulary, fluency, comprehension, and knowledge building. The EdReport of the 3rd-5th grade Wonders curriculum can be viewed [here](#).

In the spring of 2028, Flushing Community Schools will again engage in a selection and alignment process to identify a new 3rd-5th grade core literacy with an anticipated completion date of June 2029.
