

Breaux Bridge Primary Parental and Family Engagement Policy 2026-2027

Mission Statement: Breaux Bridge Primary's mission is that the faculty and staff:

Are committed to providing a positive, safe and supporting learning environment that fosters our students' love of learning by encouraging them to try new and exciting things. We want all students to leave us with a solid foundation to build on so all can achieve their full potential and become independent life-long learners.

Vision Statement: Our vision at Breaux Bridge Primary School is to work together to provide a safe, nurturing and inclusive environment which acknowledges and respects children from diverse families and cultural backgrounds.

Statement of Purpose: The St. Martin Parish School Board recognizes that parental involvement is the key to academic achievement. The term parent refers to any caregiver who assumes responsibility for nurturing and caring for children, including parents, grandparents, aunts, uncles, foster parents, stepparents, etc. Studies demonstrate that when parents are involved in their children's education, the attitudes, behaviors, and achievement of students are positively enhanced. Parents and families provide the primary educational environment for children; consequently, parents are vital and necessary partners, with the educational communities, throughout their children's school career. Although parents come to the schools with diverse cultural backgrounds, primary languages, and needs, universally all parents want what is best for their children. Parental involvement must be a focus in the classroom if schools are to be able to achieve high academic standards and create productive citizens. Schools in collaboration with parents, teachers, students and administrators, must establish and develop efforts that enhance parental involvement and reflect the needs of students, parents, and families in the communities which they serve. In order to meet these expectations, the Parental and Family Engagement Plan for Parks Primary will address the following standards from all directions including school to family, family to school, community to school and school to community:
