c.	What is our average comprehensive ACT score?	17.9	Kansas Report Card 24-25, bldg 2025
SECTION 9: Other Data			**Notes**
a.	Based on the building leadership team's analysis, what are the barriers your school faces with non-assessment related issues?	Attendance, chronic absenteeism, student engagement, and increasing student mental health needs continue to be our biggest barriers.	
	1. Can these be achieved with additional resources?	Yes, additional staff and intervention resources would help address many of these challenges.	
	2. Why or why not?	While additional resources would help, many factors affecting student success occur outside of school and require support from families and community partners.	
b.	Additional building unique items:	Campus High School continues to navigate major construction while maintaining daily operations and implementing new state and district initiatives.

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Students who enter high school with gaps in foundational reading and math skills face greater challenges in grade level coursework. Chronic absenteeism, inconsistent engagement, and socioeconomic barriers continue to impact student achievement. While tiered interventions provide needed support, balancing intervention time with access to electives and career pathways remains a challenge.

(B) Identify the budget actions that should be taken to address and remove those barriers.

Budget priorities should include continued support for tiered interventions, attendance improvement efforts, expanded academic and mental health supports, professional learning for staff, and resources that strengthen student engagement while increasing access to career pathways and elective opportunities.

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

Sustained implementation of these strategies will require approximately 8 to 10 years to achieve grade level proficiency for all students.

2025-2026 State Assessments Reviews for 2026-2027 Budget Considerations

Light yellow cells are intended to be filled in.

District:	**Haysville USD 261**	**Bldg #**	**Grades Served:9-12**
School:	**Haysville High School**	**1973**	

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Chronic truancy makes it impossible for students to keep up in school. When students miss they miss vital information for continued learning which creates frustration which leads to more absences. There are a greater number of students suffering from depression and anxiety which negatively affects attendance and school performance. Compounding this is the reduction in funding due to shrinking enrollment. While this reduction in funding makes sense based on the funding formula, the loss of this money causes programs to be cut that positively impact all students. Many students have gaps in reading and math skills that require early intense intervention at the high school level. Test taking skills need to be directly taught at all levels.

(B) Identify the budget actions that should be taken to address and remove those barriers.

Hiring additional staff to address tier 3 interventions. Curriculum for test taking skills. Adding staff and programs to address mental heath concerns. Increased outside funding for government agencies tasked with addressing chronic truancy.

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

Continued implementation of early, effective interventions in math and reading, coupled with increased availability of mental health services, and a continued reduction in chronic truancy this should be achievable within 10 years.

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

We are making progress in shaping the understanding that regular school attendance is vital to the success of a child's academic performance, but there are continual focus and growth needed. The additional day added for social workers has played a key role in the success of students in our PBS program, however additional funding could be used to staff each school building with social workers and hire more mental health professionals to ensure that support is adequately distributed and not stretched too thin. The challenge of resource allocation becomes even more difficult when the responsibilities of teachers, paraprofessionals, and clerical staff increase without a corresponding increase in compensation. The reduction of staff has had a negative impact on staff morale and the ability to meet all the students' needs causing us to prioritize differently. This issue of underfunding requires immediate attention to help prevent burnout and ensure that educators and staff receive the support they need. Adequate funding is essential not only for compensating current staff appropriately but also for equipping schools with the necessary tools to foster a productive learning environment. Recruiting and retaining quality staff is becoming increasingly difficult without competitive funding levels. Education demands a high level of commitment and expertise, yet the compensation offered often does not reflect the dedication required, making it challenging to attract professionals who are willing to invest their time and energy in supporting our students. Competitive salaries in other districts and lower benefit costs are essential to draw and keep talented individuals in the educational sector. Adequate training for educators on new curricula is vital to ensure effective instruction. Professional development opportunities need to be scheduled at a time when staff are not removed from their classrooms regularly as poor teacher attendance also has a negative impact on student achievement and feeling of safety in their school. PD needs to tailor to meet the demands of evolving educational standards and practices. Continual PD and support in addressing disruptive student behaviors that cut into learning time is necessary for maintaining

(B) Identify the budget actions that should be taken to address and remove those barriers.

It is essential to continue educating all stakeholders about the significant impact of absenteeism on students' academic success. Persistent efforts in communication and community engagement can help underscore the critical role that consistent attendance plays in educational outcomes. While we have made strides in adding mental health resources, the demand still exceeds our current capacity and the percentage of students enrolling with significant mental health needs continues to rise every year. Ongoing efforts to secure additional funding are crucial to providing adequate support for students dealing with trauma and other mental health challenges. The district needs to focuses on providing opportunities for community members to participate in classes and learn skills related to parental involvement in education, effective parenting strategies, addressing student behaviors at home, financial literacy, and supporting their children's learning at home. We should continue to expand partnerships with local businesses to provide students with job shadowing opportunities and increase hands-on learning experiences. These connections are invaluable for introducing students to potential career paths and practical skills. We must manage our resources wisely and with full accountability. Using available resources with fidelity and setting high expectations for all involved will ensure that our educational goals are met efficiently and effectively. To attract and retain high-quality staff, it is critical that we offer compensation that is competitive with the business world. Adequate funding is essential to ensure that

2025-2026 State Assessments Review for 2026-2027 Budget Considerations

District:	USD 261 Haysville Public Schools	**Bldg #**	**Grades Served:**
School:	**Nelson Elem**	**1964**	**K-5,PK (w/IEP),PK, PKAR (4 YO)**

Light yellow cells are intended to be filled in.

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

1) Chronic Absenteeism prevents students from academic success. Not only does this impact the students who are not in school, but it also impacts the students who are here everyday when the teacher needs to reteach for those that are chronically absent.

2) Students have increasing social-emotinal and mental health needs that pull a lot of support from all students. We need more hands on deck that have the knowledge and can assist with these needs.

3) As we continue to build literacy skills within our students, we are taking the next step after implementing a vocabulary initiative to measure comprehension as well as engaging parents in the converstaion and partnering with them to help them understand how to build skills at home will be a focus.

(B) Identify the budget actions that should be taken to address and remove those barriers.

Fully fund Special Education.

Increase staff to provide the needed social-emotional supports for students that is rapidly increasing.

Continue to increase classified pay to be competitive with other districts for employee recruitment and retention.

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

Although this is a lofty and unrealistic goal, we do aspire to see growth from every student at Nelson. By shoring up Tier I instruction and continuoulsy working with staff to get the supports students need, we believe we can see a significant improvement in student state assessment scores in ten years.

Sec. 8. On and after July 1, 2021, K.S.A. 72-1163 is hereby amended to read as follows: 72-1163. (a) Each year the board of education of a school district shall conduct an assessment of the educational needs of each attendance center in the district. Information obtained from such needs-assessment shall be used by the board when preparing the budget of the school district to ensure improvement in student academic performance. The budget of the school district shall allocate sufficient moneys in a manner reasonably calculated such that all students may achieve the goal set forth in K.S.A. 72-3218(c), and amendments thereto. The board also shall prepare a summary of the budget for the school district. (A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

1) While we are showing improvement, chronic absenteeism is still an ongoing barrier. Not only are students missing out on consistent, explicit instruction when they are absent, but those that are here on a regular basis are prevented from moving forward at a consistent pace because teachers must go back and reteach when the chronically absent students return.
2) Providing first rate instruction by highly qualified teachers that are committed to fidelity to curriculum, following pacing guides and adhering to processes, such as tiered instruction through the MTSS process.
3) Attract high quality teachers with a more comparable salary schedule and benefits package.

(B) Identify the budget actions that should be taken to address and remove those barriers.

1) Continue to provide funds to support attendance iniatives.
2) Increase salary and benefits for teachers as well as classified staff in order to entice high quality educators and support staff to apply and stay in the district.

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

With fidelity to curriculum and pacing guides, increased focus on tier one instruction, continued focus on regular attendance and trauma/mental health support, as well as other areas mentioned, significant growth would be evident in 8-10 years.

2025-2026 State Assessments Review for 2026-2027 Budget Considerations

District:	USD 261 Haysville Public Schools	**Bldg #**	**Grades Served:**
School:	**Prairie Elementary School**	**1961**	**K-5,PK (w/IEP),PK**

Light yellow cells are intended to be filled in.

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

To ensure that each student achieves grade-level proficiency on assessments, we must address several key barriers. One significant challenge is student attendance. Chronic absenteeism limits access to consistent instruction, causing students to fall behind academically. Improving attendance through targeted outreach, consistent communication with families, and supportive interventions is essential for student success. Another barrier is the social-emotional, trauma, and behavioral needs of students. These factors can greatly impact a child's ability to focus, engage, and retain information. Addressing these needs through a strong support system that includes social-emotional learning, trauma-informed practices, and behavior interventions is critical to removing obstacles to learning. Additionally, we will be moving to a flexible MTSS model. Together, these focus areas create a foundation for academic success and help close achievement gaps.

(B) Identify the budget actions that should be taken to address and remove those barriers.

To address and remove the barriers to student achievement, specific budget actions must be prioritized. One key action is the continuation of funding for the Pando Initiative, which plays a critical role in supporting student attendance and connecting families with resources to reduce chronic absenteeism. By maintaining this partnership, we can ensure ongoing outreach, mentorship, and case management services that directly impact student engagement and access to learning. Additionally, allocating intervention funding to support students' social-emotional, trauma, and behavior needs is essential. This includes investing in additional staff such as counselors, behavior interventionists, and social workers, as well as providing professional development and resources for trauma-informed practices. These targeted budget decisions will help eliminate barriers to learning, promote a safe and supportive school environment, and ensure all students have the opportunity to achieve grade-level proficiency.

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

It is estimated to take 6 to 8 years with improved student attendance, increased interventions for social emotional/trauma/behavior needs, and MTSS flexible grouping.

Light yellow cells are intended to be filled in.

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

1.. Attendance--Making gains but improvement is still needed. 2. Fidelity to the curriculum--Ensuring that all teachers are teaching the content and follwing our pacing guide. 3. High Quality Teachers--Attract and retain the best teachers.

(B) Identify the budget actions that should be taken to address and remove those barriers.

1. Improve the compensation package to attract new teachers and retain our current teachers. 2. More money available for incentives to help support our Attendance initiative.

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

This will be a slow process to achieve grade level proficiency, but it would take 8-10 years.

2025-2026 State Assessments Review for 2026-2027 Budget Considerations

District:	USD 261 Haysville Public Schools	**Bldg #**	**Grades Served:**
School:	**Ruth Clark Elementary K-5**	**1965**	**K-5,PK (w/IEP),PK, PKAR (4 YO)**

Light yellow cells are intended to be filled in.

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Attendance- Students have to be here consistently to learn. Curriculum- Teachers need time with the curriculum, not only to learn it but time to go back and teach when students need it. Pay- We want the best teachers teaching for our district. Therefore we need to be up to par with other districts on their pay scale.

(B) Identify the budget actions that should be taken to address and remove those barriers.

Continue to educate all stakeholders on the impact absenteeism has on the academic success of students. We lost a mental health staff member/resource to support students, and the need still outweighs the available resources at this time. We need to continue to locate additional funding to support our students with trauma and mental health issues. We need to continue to build partnerships with businesses that can provide opportunities for our students to shadow and learn hands-on what career paths are possible. We need funding to pay all staff at a rate that is comparable to the business world so we can retain high quality staff. Staff development is always needed to ensure teachers have the resources and skills to be highly effective. Continue to look at staff ratios to make sure the student to staff ratios make sense.

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

We still believe it will take a good 8 years to achieve grade level proficiency on state assessments if the budget actions were to be implemented.

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Student behavior disabilities interfere with their ability to learn, remain in a ready to learn state, persevere through nonpreferred or difficult academic tasks.

(B) Identify the budget actions that should be taken to address and remove those barriers.

Training of staff in behavior interventions that allow students to remain in a ready to learn state, identify barriers to finding, hiring, and retaining classified staff.

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

8-10 years to achieve grade level efficiency, increase our ability to provide behavior instruction to assist students to return to their home school.

District	Grades Served	(A) Barriers Related to Student Needs	(B) Budget Actions	(C) Time for students to Achieve	Board Rationale/Comments
Haysville Public School District	PK-12	1 Chronic absenteeism 2 Proper funding (including Special Education) 3 Fully fund Special Education 4 Social-Emotional needs 5 Behavioral needs 6 Lack of support staff to adequately support students 7 HB 2567 8 Lack of parent involvement 9 Transportation (for students who live outside of the 2.5 mile radius) 10 Lack of test-taking skills 11 Test-taking fatigue and anxiety 12 Communication between different schools to share success strategies 13 Fidelity to the curriculum 14 Socio-economic barriers throughout the community 15 Access to the curriculum at home (lack of internet) 16 Student motivation 17 Physical and mental health issues (students, families, and staff) 18 Sustainability of the School-Based Health Clinic (SBHC) 19 Cell phone law/ban - possible loss of instructional time 20 Transient students in the district - approx. 10%	1 Project Lead the Way (K-5 & Engineering at CHS) 2 Purchase additional resources at the middle level for Reading (Read 180 & The Code) 3 Additional Math support for secnodary students through myPath 4 Stipends for staff who complete LETRS training 5 Edgenuity for credit recovery and Alt. MS & HS including CTE courses, SEL, and Exceptional Learning Courses 6 Restructured Alt. Learning at the middle level 7 Reallocated funds to allow for a Behavior Specialist at the elementary level 8 Funding allocated for future curriculum adoptions 9 Through the KESA process, USD 261 is implementing a focus on vocabulary 10 Contine to support attendance initiative funding 11 Funding for classified pay 12 New state assessment rubric for alternative test-taking for students on IEPs (approx. 1,000) and 504s 13 Offer more courses for parents to take through the Dr. John Burke Learning Center (Ex: Parenting Healthy Habits) 14 Pay to play option for transportation	1 This is unattainable and unrealistic. 2 Adequate state funding for special education is essential; however, funding alone cannot guarantee that every student will score a 3 or 4 on the state assessment. 3 It is difficult to answer this questions because there are so many factors that go into this that we do not have control over. 4 Every child is different and comes to us from a different background with a different home life, so as a result, the deadline will change based on each child and their needs. We educate the public with limited funding and cannot pick and choose who comes through our doors.	See columns to the left for USD 261 Board of Education comments
