

THE COMPASS GOES DARK

The Gray Fog crept into Produce Kingdom and stole the glow from Captain Carrot's Vision Compass. The fog grinned and stretched its smoky arms. "Now you'll never find the missing colors!" Captain Carrot held the dull compass and worried. How could he guide the League?

MIGHTY APPLE HAS A PLAN

Mighty Apple arrived with a confident smile. “We don’t need to guess,” he said. “We’ll call fruit heroes with different colors, tastes, and textures. Every time students explore a fruit, the compass can collect a new Color Power!” Captain Carrot’s worried face brightened.

THE FRUIT SQUAD ARRIVES

Scuppernong Shield, Plum Pulse, Mac Scout, Grape Spark, Pear Guard, Sweetie Speed, Watermelon Wave, Pluot Fusion, Crimson Guard, and Tango Echo raced into the plaza. “Ten fruits, ten missions!” Mighty Apple cheered. High above them, the Gray Fog quietly peeked from behind a garden tower.

PRODUCE EXPLORERS POWER UP!

The students became Produce Explorers. They looked, smelled, tasted, and described each fresh fruit. “You don’t have to love every bite,” Captain Carrot reminded them. “Trying and learning are hero actions!” With every curious taste, the Gray Fog shrank and the compass glowed brighter orange.

THE COLORS POWER UP

Tango Echo took one enormous bite. CRUNCH! The sound echoed across the kingdom as Captain Carrot's fully powered compass flashed bright orange. Every fruit hero aimed a different Color Power beam at the Gray Fog. The beams joined together and pushed the shrinking Fog far away. "Every healthy choice makes you stronger!" cheered Mighty Apple. The Produce Explorers earned their September Color Explorer Badge!
