

Governor Wentworth Regional School District
Memo to School Board
Submitted by Scott Laliberte

September 14, 2026

Superintendent's Report

Below, please find the matters covered by my report at the meeting this evening. School openings have been smooth to date, with all initial indications being positive. We look ahead to our October 1 Student Enrollment count for official numbers by school.

Student Representative - 2026-27

This evening I will be introducing the Student Representative to the School Board, Senior Ryan Santerre. Mr. Famulari and I met with him last week, and we are looking forward to his participation over the coming year.

Strategic Plan Update:

As the Board is aware, the Administrative Team and School Board have been working to update the LRSP for the current school year. Currently, we have posted on the District website a summary of the updates. This evening, Dr. Hills and I will present the schedule on which we will conduct deeper examinations of each of the goal areas in subsequent meetings this school year, as follows:

- October: Academic Achievement Goal Area
- November: Wellness Goal Area
- December: Culture of Belonging and Equity Goal Area
- January: Community and Family Engagement Goal Area
- February, March, April, & May: Specific projects
- June: End of Year Update

Budget Transfer Requests:

We have transfer requests for the Board's consideration regarding Special Education Services. Where Adriana is still recovering from her surgery, I will speak to the requests on both her behalf and that of Dr. Kelly Mask. Both transfer requests are to accommodate students placed out of district who have moved from elementary to middle school grades - lines adjusted to accommodate that change.
