Public Comments: N/A

FY28 Budget Timeline and Development – Discussion & Possible Action: Clark handed out FY2028 Budget Development Memorandum. Clark is being aggressive about the timeline this year. Admin was given their budget today. She made a preliminary assumption of 3.5% increase to Ed spending. There are a lot of pressures on spending again this year. There will be a Budget 101 in October for the Board. Annual meeting is February 15, 2027; Informational meeting on February 22, 2027.

The next FCC meeting will be on October 19, 2026. There was discussion on when these meetings should be and with whom. It would be a long meeting if everyone was there. They will break the admin into at least two meetings, as has been done in the past few years. Subsequent to the October 19th meeting will be to meet on October 26. Dylan has prepared a capital projects listing, included in the full Board packets. A lot has been deferred over the last couple years. Clark is recommending that the FCC consider presenting to the Board adding separate Australian Ballot articles specific to capital spending, as other school districts have done.

Other Business: N/A

Adjourn: At 5:51 pm, Nielsen made a motion to adjourn.
