The South Whidbey School District (the "District") is pleased to be able to provide students with access to an internet-capable device. It is the district's belief that the Internet offers vast, diverse, and unique resources for education and research. Our goal in providing this service is to promote educational excellence in schools by facilitating resource sharing, innovation, and communication. South Whidbey School District is committed to providing students and families with a device to access all levels of today's technology classroom environment. Please note the following with regard to information about checkout procedures for a school district-supported device.

South Whidbey School District is not responsible for issues related to internet use once devices leave school grounds. Lost, stolen or damaged devices are subject to the policy and responsible use detailed in the

SWSD Technology Handbook. (located on SWSD website)

For a small fee, families can purchase insurance for each device checked out. (see below) SWSD is responsible for supporting the device and any equipment failure

Family/Student is financially responsible for intentional, neglectful damage to the Chromebook during the checkout period.

I have read the above policies detailed in the **SWSD Technology Handbook** with my student and agree to be responsible for my student's use of the school equipment.

This list is not exhaustive and can change without notice to you. We are providing notice to you that we provide and manage these accounts for your child. At the District, students will use their accounts to complete assignments, communicate with their teachers, sign into their Chromebook, and learn 21st century digital citizenship skills. We reserve the right to add services that we manage to this agreement without reseeking consent.

The notice linked at our Technology Help Center (School District Website) provides answers to common questions about what Google can and can't do with your child's personal information, including:

- What personal information does Google collect?
- How does Google use this information?
- Will Google disclose my child's personal information?
- Does Google use student personal information for users in K-12 schools to target advertising?
- Can my child share information with others using the Google Workspace for Education account?

Please read it carefully, let us know of any questions, and then sign the preceding page to indicate that you've read the notice and give your consent. If you don't provide your consent, we will not create a G Suite for Education account for your child.

Your signature on the previous page gives permission for the District to create/maintain accounts for your child and to collect, use, and disclose information about my child only for the purposes described in the notice above.
