## ***BELIEVE. BELONG. BECOME.***

Welcome to Robbinsdale Academy - Highview! Our curriculum and environment are beneficial for students who thrive with smaller class sizes and increased flexibility in a hands-on learning environment. Like a supportive extended family, our school ensures equitable and respectful experiences for everyone.

### **PERSONALIZED LEARNING AND MENTORING**

At Robbinsdale Academy - Highview, you will find staff who understand and accommodate the many experiences students bring to school: a learning difference, a job, or many other factors. We design our curriculum to offer maximum support for students as they reach for and attain their goals.

- Each student works with an advisor to develop personal goals and a pathway to achieve them.
- Students learn hands-on, real-world skills that prepare them directly for success in work, trade, or education after high school. In fact, many Highview students enroll concurrently at Hennepin Technical College, where they receive both high school and college credit.
- In our accelerated program, students can progress faster than in a traditional high school, ensuring they stay engaged in learning.

### **THE HIGHVIEW EXPERIENCE**

New students will have the opportunity to be involved in our Quality Starts Program, which helps each student set goals for attendance, academic progress, and graduation.

## MISSION

The mission of Robbinsdale Area Schools is to inspire and educate all learners to develop their unique potential and positively contribute to their community.

### HENNEPIN TECHNICAL COLLEGE

Through a partnership with Robbinsdale Area Schools, Hennepin Technical College (HTC) has developed programming of special interest to Highview students. The school provides transportation to the HTC campus where, in addition to attending classes, students can use the library, meet with professors, and generally get a solid start in college. A Highview staff member is available on site at HTC to help students navigate and build college skills.

### CAREER AND TECHNICAL CLASSES

Highview students can attend on-site career fairs and take classes in their desired career area at HTC, North Hennepin Community Technical College and Minneapolis College.

### WORK EXPERIENCE

Students with jobs are able to earn elective credit for their work hours and assigned curriculum. Students who would like a job receive assistance applying for jobs at employers with open positions.
