

Application for Minor Work Permit/Work Permit Rules

This is just an application for a work permit. Only students under the age of 18 need a work permit. When completing a work permit application, 3 sections are required.

Section 1 (Student/Applicant Information)

This section is completed by a Parent/Guardian. This is information about the applicant. A parent/guardian signature is required. The Superintendent/Chief Administrative Officer/ Designated Issuing Officer signature will be signed by someone in the HS office when the form is completed and returned to the HS.

Section 2 (Pledge of Employer)

This section is completed by the employer once you have been hired. The items highlighted **MUST** be completed, it is “**Mandatory**”. The employer must sign as well.

Section 3 (Physician's Certificate)

This section is a physician statement saying you are physically able to perform the job you have been hired for. If you have a sports physical on file with the HS that is still valid, it can be used. If you don't have a current physical on file, you will need to visit your doctor for a completed physical.

Once all 3 sections are complete, you must return the application packet to the HS office and a work permit will be issued for you.
