JACKSON NEWS

SEPTEMBER 2026

A note from our Literacy Coach:

Dear Jackson Families,

My name is See Lee Vang, and I am pleased and honored to be the Act 20 Early Literacy Coach for the next two years at Jackson Elementary School. The Department of Education established a new Early Literacy Coaching Program, especially in grades kindergarten through third grade, to strengthen reading instruction and support educators across the state.

As part of my role and responsibility, I will work through a series of continuous improvement cycles designed to improve literacy outcomes. I will study what is currently happening in classrooms, collaborate with teachers and administrators to identify evidence-based early literacy practices that accelerate student learning (especially those that address achievement disparities in reading), facilitate training for all staff on how to effectively implement the selected practice, coach teachers one-on-one or in small groups to support and refine implementation, and visit classrooms to collect data and determine next steps.

I look forward to our partnership together as we work toward literacy proficiency in reading for all our Jackson students. Please reach out should you have any questions or concerns.

Respectfully,
See
