September 17, 2026

Dear Parent/Guardian:

In spring 2026, your student participated in the New Jersey Graduation Proficiency Assessment-Adaptive (NJGPA-A), which measured the extent to which your student is graduation ready in English language arts (ELA) and mathematics. The ELA component of the NJGPA-A assesses student graduation readiness based on grade 10 standards. The mathematics component of the NJGPA-A assesses student graduation readiness based on Algebra I and Geometry standards.

The NJGPA-A is required to be administered to students in grade 11 in accordance with state statute (N.J.S.A. 18A-7C-1 et seq). A minimum score of 450 is required for each component (ELA and mathematics) of the NJGPA-A and was adopted by the State Board of Education on August 5, 2026. Graduation readiness is reported separately for each content component.

Your student's NJGPA-A Individual Student Report (ISR) has been uploaded to the [Genesis Parent Portal](#). You can access the scores by selecting your graduating student, clicking on Documents, and then looking for "New Jersey Graduation Proficiency Assessment Spring 26" in the list of documents. The ISR will also be available in the New Jersey Family Portal at nj-familyportal.cambiumast.com. This portal enables you to view test results online and includes information such as a glossary of assessment terms and access to helpful resources. To access the family portal, you will be asked to type the access code on the ISR, student first name, and student date of birth.

If your student completed the assessment but did not meet the minimum required score (450 or above) in one or both content components, they may retake and demonstrate proficiency on the needed component(s) for ELA, mathematics or both, on October 14 - 16, 2026. Students can access an alternative pathway available to their graduating class if they received a valid score in each component of the NJGPA-A and meet the requirements specified in the alternative pathways available to their graduation class for that specific component. For additional information about the graduation assessment requirements and alternative pathways for the class of 2027, please visit the NJDOE Graduation Assessment Requirements webpage at <https://www.nj.gov/education/assessment/requirements/2027.shtml>.

For additional information about these assessments, please visit the NJDOE Assessments webpage at nj.gov/education/assessment/adaptive for a series of pamphlets focused on providing a quick overview of the new assessments. You may also wish to visit the Students & Families page on the New Jersey Assessments Portal at nj.portal.cambiumast.com.

We are committed to supporting your child during their high school experience, which includes providing opportunities and support to assist them with meeting the high school graduation assessment requirement.

If you have any questions about your student's results, please feel free to contact your child's counselor or case manager. Thank you for your continued partnership in supporting your child's learning.

Sincerely,

A handwritten signature in cursive script that reads "Damian C. Pappa". The signature is written in a dark ink and is positioned to the left of the printed name and title.

Damian Pappa
Assistant Superintendent of Schools
