Moreland University

PREPARED FOR

BIBB COUNTY, GEORGIA

You already know you belong in a classroom.

Moreland University turns that into a professional teaching certification in nine months — fully online, built around the job you already have, with a cohort and a dedicated mentor beside you the whole way.

No application fee | Monthly start dates | Interest-free payment plans

9
months from application to certified teacher

10,000+
educators certified across 160+ countries

92%
program retention — people finish what they start here

Apply free at moreland.edu

WHY MORELAND

Certification that fits your schedule.

No commute, no semester calendar, no waiting until fall. From the first week you are working through real classroom problems with people who are living the same ones — and you get to practise with actual students, supported, before the room is yours.

100% online, one live class a week
You pick the class time that works for your week. The rest you do when your evenings allow.

Student teaching where you already work
Already in a Bibb County school? Learn right where you are, with the students you know. Not yet? We find you a placement.

A cohort, not a course library
You go through it with a small group of educators from around the world — the same faces every week, and often the same friends years later.

A dedicated program advisor
A dedicated team member who guides you throughout the program with anything from certification information to exams you need.

GACE support available
Preparation and guidance for your Georgia certification exams are avaialble, so nothing about test day is a surprise.

Start next month, not next year
New cohorts begin every month, so the decision you make today can start turning into a classroom in weeks.

> *"I tell everybody this when I talk about Moreland: they were my saving grace, because I was about to walk away from education. I had the best teacher ever. She gave me so many strategies, she pushed me, and I excel because of her guidance and leadership."*
>
> **Antionette Wiggins**
> TEACH-NOW graduate · Georgia

District partners get discounted tuition. Ask Bibb County HR for your rate, and your advisor will build a plan around it — interest-free monthly payments, or financing deferred while you study.

Nine months from now, this could all be behind you — and the classroom in front of you.

moreland.edu

INSIDE THE PROGRAM

How the nine months go.

Eight modules that build on each other, ending with twelve weeks in front of real students.

1	Orientation	1 wk
2	Culture of schooling	3 wks
3	Learning in the digital age	4 wks
4	Classroom management	6 wks
5	Student assessments	4 wks
6	Planning and preparation	4 wks
7	Introduction to clinical practice	2 wks
8	**Student teaching**	12 wks

Job-embedded, practical application
Everything you learn is applied in a real classroom the same week — often your own.

One-hour Zoom class each week
A single live session with your cohort. The rest fits around your job.

Support the whole way
A dedicated mentor, program advmisor and a cohort that supports your the whole way through.

GACE support available
Preparation and guidance for your Georgia certification exams.

Already teaching in Bibb County? Your clinical practice can happen in your own school, with the students you already know — no extra placement to arrange.

CHOOSE YOUR PATH

Program offerings

Program	Length	Choose it if…
TEACH-NOW Teacher Preparation Certificate	9 months	You want to teach and need the certification. Student teaching included.
M.Ed. Add-On (after TEACH-NOW)	+3 months	You would rather certify first and decide about the master's later.
M.Ed. with Teaching Certificate	12 months	You want certification and the pay-scale bump together — six specializations.
M.Ed. Educational Leadership · 39 cr.	12 months	You are already certified and heading for an AP or principal seat. No GRE.
M.Ed. Globalization & Ed. Research · 41 cr.	12 months	You want to go deeper on practice and research; no certification needed.
