Medical Insurance and Preferred Provider Organization

Comprehensive and preventive health care coverage is important in protecting you and your family from the financial risks of unexpected illness and injury. Our District offers you a choice of two plans. Both plans cover the same benefits, but your out-of-pocket costs vary. Please review the plans available, then review the highlights of what each plan covers on the following pages.

Preferred Provider Organization (PPO)

These plan types contract with a large number of providers. If you choose to receive your care through a preferred provider, the insurance company will pay a higher percentage of the charges. If you choose to receive your care through a non-preferred provider, then the insurance company will pay a lower percentage of the charges and you may receive a balance bill for outstanding amounts owed.

Your PPO plan options are available through the First Choice Health PPO network.

To find a preferred provider through First Choice Health, visit <https://www.fchn.com/ProviderSearch>

You may also login to the member portal to find a provider directory. www.fchn.com

Preventive care screening benefits

TYPICAL SCREENINGS FOR ADULTS

- Blood pressure
- Cholesterol
- Diabetes
- Colorectal cancer
- Depression
- STIs

Preventive care for women should include breast and gynecological exams

For men, preventive care should include prostate cancer screening and a testicular exam

You take your car in for maintenance. Why not do the same for yourself?

Annual preventive checkups can help you and your doctor identify your baseline level of health and detect issues before they become serious.

What is Preventive Care?

The Affordable Care Act (ACA) requires health insurers to cover a set of preventive services at no cost to you, even if you haven't met your yearly deductible. The preventive care services you'll need to stay healthy vary by age, gender and medical history. Visit cdc.gov/prevention for recommended guidelines. **Preventive care is covered in full only when obtained from an IN-NETWORK provider.**

Not all exams and tests are considered preventive

Exams performed by specialists are not generally considered preventive and may not be covered at 100 percent. Additionally, certain screenings may be considered diagnostic, not preventive, based on your current medical condition. You may be responsible for paying all or a share of the cost for those services. If you have a question about whether a service will be covered as preventive care, contact First Choice Health with any questions.

GLOSSARY

-A-

AD&D Insurance

An insurance plan that pays a benefit to you or your beneficiary if you suffer from loss of a limb, speech, sight, or hearing, or if you have a fatal accident.

Allowed Amount

The maximum amount your plan will pay for a covered healthcare service.

Ambulatory Surgery Center (ASC)

A healthcare facility that specializes in same-day surgical procedures such as cataracts, colonoscopies, upper GI endoscopy, orthopedic surgery, and more.

Annual Limit

A cap on the benefits your plan will pay in a year. Limits may be placed on particular services such as prescriptions or hospitalizations. Annual limits may be placed on the dollar amount of covered services or on the number of visits that will be covered for a particular service. After an annual limit is reached, you must pay all associated health care costs for the rest of the plan year.

-B-

Balance Billing

In-network providers are not allowed to bill you for more than the plan's allowable charge, but out-of-network providers are. This is called balance billing. For example, if the provider's fee is \$100 but the plan's allowable charge is only \$70, an out-of-network provider may bill YOU for the \$30 difference.

Beneficiary

The person (or persons) that you name to be paid a benefit should you die. Beneficiaries are requested for life, AD&D, and retirement plans. You must name your beneficiary in advance.

Brand Name Drug

A drug sold under its trademarked name. For example, Lipitor is the brand name of a common cholesterol medicine.

-C-

COBRA

A federal law that may allow you to temporarily continue healthcare coverage after your employment ends, based on certain qualifying events. If you elect COBRA (Consolidated Omnibus Budget Reconciliation Act) coverage, you pay 100% of the premiums, including any share your employer used to pay, plus a small administrative fee.

Claim

A request for payment that you or your health care provider submits to your healthcare plan after you receive services that may be covered.

Coinsurance

Your share of the cost of a healthcare visit or service. Coinsurance is expressed as a percentage and always adds up to 100%. For example, if the plan pays 70%, your coinsurance responsibility is 30% of the cost. If your plan has a deductible, you pay 100% of the cost until you meet your deductible amount.

Copayment

A flat fee you pay for some healthcare services, for example, a doctor's office visit. You pay the copayment (sometimes called a copay) at the time you receive care. In most cases, copays do not count toward the deductible.

-D-

Deductible

The amount of healthcare expenses you have to pay for with your own money before your health plan will pay. The deductible does not apply to preventive care and certain other services.

Dental Basic Services

Services such as fillings, routine extractions and some oral surgery procedures.

Dental Diagnostic & Preventive Generally includes routine cleanings, oral exams, x-rays, and fluoride treatments. Most plans limit preventive exams and cleanings to two times a year.

Dental Major Services

Complex or restorative dental work such as crowns, bridges, dentures, inlays and onlays.

Dependent Care Flexible Spending Account (FSA)

An arrangement through your employer that lets you pay for eligible child and elder care expenses with tax-free dollars. Eligible expenses include day care, before and after-school programs, preschool, and summer day camp for children under age 13. Also included is care for a spouse or other dependent who lives with you and is physically incapable of self-care.

-E-

Eligible Expense

A service or product that is covered by your plan. Your plan will not cover any of the cost if the expense is not eligible.

Excluded Service

A service that your health plan doesn't pay for or cover.

-F-

Formulary

A list of prescription drugs covered by your medical plan or prescription drug plan. Also called a drug list.

-G-

Generic Drug

A drug that has the same active ingredients as a brand name drug, but is sold under a different name. For example, Atorvastatin is the generic name for medicines with the same formula as Lipitor.

Grandfathered

A medical plan that is exempt from certain provisions of the Affordable Care Act (ACA).

-H-

Healthcare Flexible Spending Account (FSA)

A health account through your employer that lets you pay for many out-of-pocket medical expenses with tax-free dollars. Eligible expenses include insurance copayments and deductibles, qualified prescription drugs, insulin, and medical devices, and some over-the-counter items.

-I-

In-Network

In-network providers and services contract with your healthcare plan and will usually be the lowest cost option. Out-of-network services will cost more, or may not be covered. Check your plan's website to find doctors, hospitals, labs, and pharmacies that belong to the network.

GLOSSARY

-L-

Life Insurance

An insurance plan that pays your beneficiary a lump sum if you die.

Long Term Disability Insurance

Insurance that replaces a portion of your income if you are unable to work due to a debilitating illness, serious injury, or mental disorder. Long term disability generally starts after a 90-day waiting period.

-M-

Mail Order

A feature of a medical or prescription drug plan where medicines you take routinely can be delivered by mail in a 90-day supply.

-O-

Open Enrollment

The time of year when you can change the benefit plans you are enrolled in and the dependents you cover. Open enrollment is held one time each year. Outside of open enrollment, you can only make changes if you have certain events in your life, like getting married or adding a new baby or child in the family.

Out-of-Network

Out-of-network providers (doctors, hospitals, labs, etc.) cost you more because they are not contracted with your plan and are not obligated to limit their maximum fees. Some plans, such as HMOs and EPOs, do not cover out-of-network services at all.

Out-of-Pocket Cost

A healthcare expense you are responsible for paying with your own money, whether from your bank account, credit card, or from a health account such as an HSA, FSA or HRA.

Out-of-Pocket Maximum

Protects you from big medical bills. Once costs "out of your own pocket" reach this amount, the plan pays 100% of most remaining eligible expenses for the rest of the plan year.

Outpatient Care

Care from a hospital that doesn't require you to stay overnight.

-P-

Participating Pharmacy

A pharmacy that contracts with your medical or drug plan and will usually result in the lowest cost for prescription medications.

Plan Year

A 12-month period of benefits coverage. The 12-month period may or may not be the same as the calendar year.

Preferred Drug

Each health plan has a preferred drug list that includes prescription medicines based on an evaluation of effectiveness and cost. Another name for this list is a "formulary." The plan may charge more for non-preferred drugs or for brand name drugs that have generic versions. Drugs that are not on the preferred drug list may not be covered.

Preventive Care Services

Routine healthcare visits that may include screenings, tests, check-ups, immunizations, and patient counseling to prevent illnesses, disease, or other health problems. Many preventive care services are fully covered. Check with your health plan in advance if you have questions about whether a preventive service is covered.

Primary Care Provider (PCP)

The main doctor you consult for healthcare issues. Some medical plans require members to name a specific doctor as their PCP, and require care and referrals to be directed or approved by that provider.

-S-

Short Term Disability Insurance Insurance that replaces a portion of your income if you are temporarily unable to work due to surgery and recovery time, a prolonged illness or injury, or pregnancy issues and childbirth recovery.

-T-

Telehealth / Telemedicine / Teledoc

A virtual visit to a doctor using video chat on a computer, tablet or smartphone. Telehealth visits can be used for many common, non-serious illnesses and injuries and are available 24/7. Many health plans and medical groups provide telehealth services at no cost or for much less than an office visit.

-U-

UCR (Usual, Customary, and Reasonable)

The amount paid for a medical service in a geographic area based on what providers in the area usually charge for the same or similar medical service. The UCR amount sometimes is used to determine the allowed amount.

Urgent Care

Care for an illness, injury or condition serious enough that care is needed right away, but not so severe it requires emergency room care. Treatment at an urgent care center generally costs much less than an emergency room visit.

-V-

Vaccinations

Treatment to prevent common illnesses such as flu, pneumonia, measles, polio, meningitis, shingles, and other diseases. Also called immunizations.

Voluntary Benefit

An optional benefit plan offered by your employer for which you pay the entire premium, usually through payroll deduction.
