No ParentVUE account yet?

Before activating your account, be sure that the school has your current email address on file. If you have more than one child, please ensure that all your children have the same email address on file in order to streamline communications from parents.

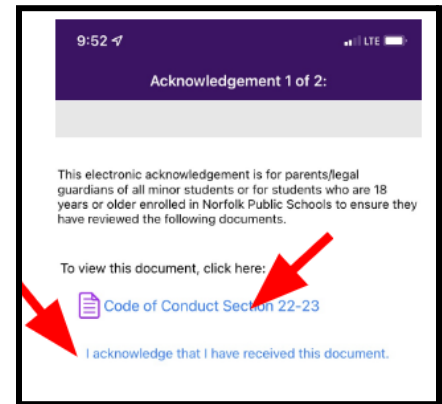

- If you have no email on file, please contact your child's school to ensure you have an active email submitted on file.

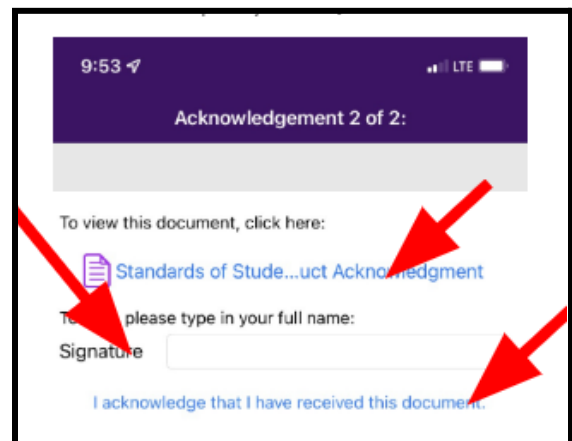

- Once you have an active email address on file, Synergy will automatically send you a link to create your account. You will receive email reminders every three days to set up your account. If you have provided an active email, please check your inbox.
- Do I need a 7-digit Activation Key? While the ParentVUE app requests an Activation Key, it is not necessary for accessing ParentVUE. Simply press the “Already Activated” button.
- Reviewing and electronically signing documents

NPS is delivering the Student Code of Conduct and Code of Conduct Acknowledgement to parents through ParentVUE. When a Parent signs in, parents will need to review both documents and electronically sign that they have received them.

To review these documents, you will need to tap the links and review the documents.

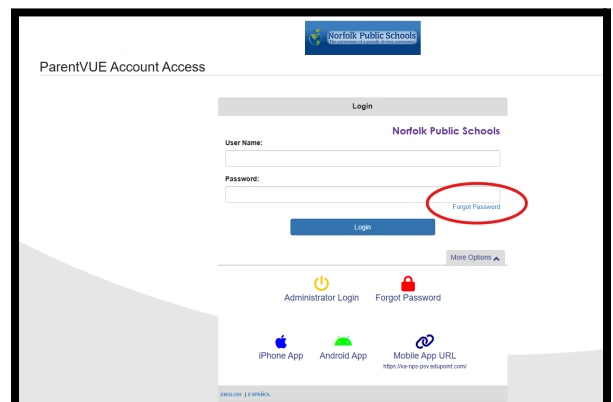

To confirm receipt, you will need to electronically sign by entering your full name in the SIGNATURE box exactly as it appears in our system to indicate that you have received it. Click “I acknowledge that I have received the document” in order to get into ParentVUE.
