1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

The goal of our program is to continue to ensure all students in our district can receive arts education. To achieve this goal, we needed to provide arts instruction to TK-4th grade students and the students in our continuation high school. To reach our 4th grade students, we funded a second elementary music teacher who taught choir and recorders to all 4th grade students in our district. To reach our TK-3rd grade students, we contracted with the Fresno Arts Council to instruct all TK-3rd grade students and high school students in our continuation high school in various arts disciplines. Teaching artists provided in-person weekly instruction to all TK-3rd grade and continuation high school students. This way, we still provided visual and performing arts instruction to all students without the potential instability of having to lay off staff. This structure allowed us to provide arts instruction to a total of 2,241 students in TK-4th grade. For the past two years, we have provided arts instruction in an additional 95 classrooms in TK-4th grade compared to zero in the 2023-2024 school year. In addition, all our continuation high school students were provided with the opportunity to receive music instruction. This has been a highly successful structure, and for stability and continuity, we plan to continue this structure for the 2026-2027 school year.
