The 'Say Something' campaign is to provide students, staff, and parents an alternative option for reporting bullying incidents, discrimination incidents, sexual assault or harassment incidents, and school safety concerns.

Reports can be submitted by texting **@SayIt** to the number **833-769-0372** or using your phone's camera to read the QR code on the posters on display throughout each school. In addition, the link to use this same system via computer is a bookmark on every Chromebook in the District. https://iowacityschools.co1.qualtrics.com/jfe/form/SV_ekyugY0WznI2TUF

When a report is received, the principal of the building indicated as the site of the concern will receive the full incident report via email. Designated District Administrators will also receive each incident report upon submission. In the case of emergency, students, staff, and parents should contact 911.
