Only two years of high school left! Encourage your students to **ADVOCATE** for themselves! College and the work place **VALUE** this skill and we do too!

WILSON'S YEARLY GUIDANCE FOCUS

Junior year - RESEARCH: Building on the knowledge of yourself and your interests, research options to find the BEST FIT for you as you make plans for your final year of high school, ensuring you are ready for the process!

TRANSITION

EXPLORATION

RESEARCH

SELECTION

*How can families help? Open up conversations! What is your student learning during their research? Is there something specific they are looking for in a school? **No one knows your student better than you do, help guide them to options that might not come to their mind.** Most of all, be supportive in the search by process by being open to possibilities yourself!*

Senior year - Selection: Time to make that final selection on the best path for you as you complete high school and look to the future!

TONIGHT'S VERY FULL AGENDA...

1. Support resources and time management techniques.
2. Evaluating your progress towards Graduation and College and Career Indicators, including status of your A-G completion
3. Determine if you are in need of credit recovery or grade improvement and understand options
4. Review Academic Plan section in Aeries and process for updating Senior Course requests
5. Evaluate post secondary options and how they can best help you reach your goals
6. Understand cost of attendance, financial contribution and financial need
7. Know that help is available and junior conferences will take place next semester

THIS PRESENTATION CAN ACCESSED NOW ON WILSON'S WEBSITE!

JUNIOR YEAR CAN BE STRESSFUL FOR EVERYONE!!

Use low-pressure settings: Talk during car rides or walks side-by-side so eye contact feels less intense.

Ask specific questions: Skip "How was school?" and ask what was difficult or interesting about their day.

Listen without fixing: Acknowledge their feelings instead of rushing to lecture or solve the problem right away.

Keep routines steady: Prioritize sleep, limit 1 night screen time, and ensure they know how to reach a school counselor.

Challenges happening at home? Keep counselors posted so we can support!

Easy referrals to Therapists ON CAMPUS to support students (medical required); off campus referrals also available!

Foothill Family

Rooted in caring since 1926

EISENHOWER MATRIX CAN HELP WITH TIME MANAGEMENT!

Last year we talked about how stress can be positive - managing time effectively can help students avoid being overwhelming!

Many students benefit from having someone help them keep track of deadlines and priorities. Talk with your student about their to-do list and ask how you can support them in meeting their responsibilities.

Good Life Skills!

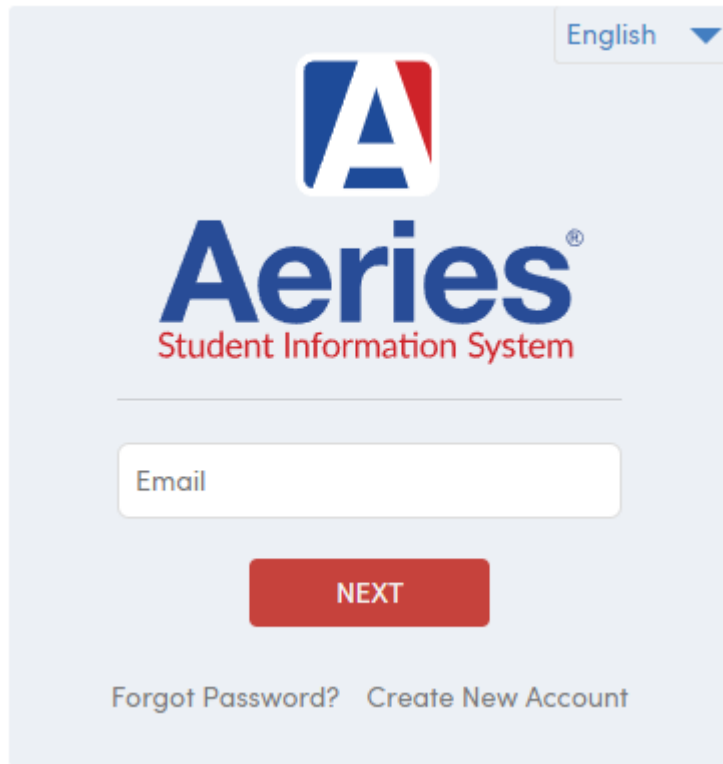

Remember this?

	Urgent	Not Urgent
Important	DO If a task is urgent and important, prioritize it. This is your highest priority task.	SCHEDULE If a task is important but not urgent, schedule a time to get it done.
Not Important	DELEGATE If a task does not require your input but does need to be done, delegate it.	DELETE If a task is neither urgent nor important, it should be deleted and removed from your plate.

**11TH
GRADE**

LET'S PRACTICE - WHAT'S URGENT AND IMPORTANT?

The screenshot shows the Aeries Student Information System login interface. At the top right, there is a language dropdown menu set to "English". The Aeries logo, featuring a stylized "A" in blue and red, is prominently displayed above the text "Aeries® Student Information System". Below this, there is a white input field labeled "Email". A red button with the text "NEXT" is positioned below the email field. At the bottom of the page, there are two links: "Forgot Password?" and "Create New Account".

Stay involved and aware
of your student's
progress - **DONT WAIT**
for a report card in the

MILITARY OPTIONS

If you're thinking of enlisting in the military, start with some research.

It's a big decision, and you'll have important choices to make when you sign up.

As an active duty enlisted member, you'll learn a job specialty and do hands-on work. You'll sign a contract, usually for four years active and four years inactive service.

The military has five branches: the Air Force, Army, Coast Guard, Marine Corps, and Navy. Each has its own focus, job specialties, base locations, and more.
