

Kickstart your STEM career with

Washington Aerospace Scholars!

A two-part program for **high school juniors** focused on the history and future exploration of space by NASA, and topics in aerospace, aeronautics and astronautics.

Phase One

Online distance learning course provided at-no-cost and designed in partnership with NASA and the University of Washington, which provides students the opportunity to earn five UW college credits.

Phase Two

A week-long residency experience where students work with STEM professionals, NASA scientists, university students and STEM educators. Financial assistance available.

In addition to exposure to NASA and aerospace curriculum, WAS provides interaction with STEM industry professionals, hands-on engineering activities and a national alumni network which tracks student progress from high school until after college graduation. WAS alumni are also provided exclusive opportunities for internships and college scholarships.

Washington Aerospace Scholars is made possible through support from NASA, The Museum of Flight and individual donors.

Open Enrollment:

September 14 – October 13, 2026

**Applications are accepted on a rolling basis while room is available*

Phase Dates:

PHASE ONE: Oct 20, 2026 – March 9, 2027

PHASE TWO: Summer 2026

Requirements:

High School Junior in Fall 2026
Resident of Washington State
