

Care Facilitation

Child & Adolescent Walk-In Care Facilitation Clinic

About Care Facilitation

Care Facilitators are part of your child's treatment team. They work with you to understand your family's strengths and needs and help you set goals to thrive.

They also help connect you with services and resources, coordinate care between providers and support your family every step of the way.

Care Facilitation Clinic

The Care Facilitation Clinic helps you decide if care facilitation services would be a good fit for your family. We'll assess your child's needs and can connect you with Oaklawn services, community programs and parenting support. We also connect you with healthcare providers such as dentists, doctors and Applied Behavior Analysis specialists. Our team works together to make sure your family gets the support that's right for you.
