

MATH TUTORING

High School • GCSE • A-Level • SAT • General Maths

- Help with current school material
- Homework, tests and exams
- GCSE and A-Level preparation
- SAT Maths preparation
- Clear, patient explanations without stress
- Individual approach tailored to each student

I also teach programming

PHP (HTML/CSS/JavaScript), Java & C++ • Whether you're completely new to programming or need help understanding a project, I can explain concepts step by step and help you become more confident writing code.

WHY LEARN WITH ME?

- **100% on the Polish Matura Mathematics exam** • Poland's national high-school leaving exam. The Polish Matura is considered more demanding in terms of mathematical content than the standard UK GCSE level.
- Graduate of a technical IT high school
- 10+ years of professional programming experience
- Worked professionally with clients from around the world
- 5 years of experience tutoring mathematics
- Patient, calm and easy-to-understand teaching style
- Lessons adapted to your individual level and goals
- Free 20-minute introductory call
