2026 - 2027 26-27 HSBP (9-12)
Fill out the following information to satisfy the requirements of this plan.
1 What is the High School & Beyond Plan (HSBP)?
Incomplete
Each year, you get time to do activities in SchooLinks that help you explore three important questions in grades 7-12:
“Who am I?” (What are your interests, skills, values, personality traits, etc),
“What can I Become?” (What jobs/careers match who you are), and
“How do I Become That?” (What education, training, experience, and skills are needed to do the job you’re interested in)
Completing your HSBP activities each year helps you reflect on these questions to build a path forward by exploring career & college related information, setting goals, and deciding what classes to take, activities to get involved in, and skills to build that will help you prepare for what you want to do after high school.
