Facilities Manager's Report

The facilities department has been at a dead sprint. Over the summer months, we had record production, finishing the general cleaning and maintenance by the beginning of August, leaving us a month to tackle miscellaneous 'extras' that we haven't had the chance to get done in a while. We were able to work with the FRES/LCS PTO, House By The Side Of The Road and Greeley Farms to get the landscaping and flower beds at LCS brought back to life. Thank you so much to all that helped and a resounding note of gratitude to Bethany LeFleur and Brendan Greeley for donating all the flowers and river stone for the beds. We couldn't have done it without you!

Along with painting of exterior doors, and interior walls getting touched up, we had time to get the entire stage at WLC painted as well. With the new light and sound system, it was an easy addition to continue to renew the performance area. Along those same lines, we had a 'ceiling tile tour' at WLC replacing over 50 ceiling tiles that were either damaged or discolored from various leaks over the years.

The most prominent project we were able to accomplish happened in the bathrooms at WLC. I heard at the end of the last school year that polled students commented they wanted the doors and locks in the bathrooms fixed. I'm pleased to report that, along with a few various plumbing repairs, the bathrooms are fully functional. All of these things were accomplished while we were balancing between all of the CIP projects that we were lucky enough to complete over the last three months. I would like to say thank you to Christine Devine at Devine Flooring for all of her hard work coordinating and scheduling a monumental work load so we could complete well over 10,000 square feet of tile and carpet replacement in a very tight time frame.

We thought with the beginning of the school year that we might be able to take a breath for a moment. Alas, once staff and students returned and began interacting with the environment, we immediately saw a litany of help desk tickets. Currently, we have resolved over 70 help desk tickets since the beginning of the school year with another 18 in the process of resolution. It seems like it's beginning to slow down a bit for now, but we will be here to answer any calls for help that we receive.

Thank you,
Ben Hofstetter

Wilton-Lyndeborough Cooperative School District provides a safe and educational environment that promotes student exploration, critical thinking and responsible citizenship.
