Students Earn Recognition for Participation in Leadership Academy

Galena Park ISD is proud to recognize Branden Sepulveda of Cobb Sixth Grade Campus (not pictured) and Melanie Garza of Havard Elementary School for their participation in the Education in Action Summer 2026 Lone Star Leadership Academy. Their selection reflects academic achievement, leadership potential, and a commitment to making a positive impact in their schools and communities.

Branden and Melanie joined outstanding students from across Texas for an educational experience focused on leadership development and civic engagement. The program strengthened leadership skills and emphasized teamwork, service, and responsible decision-making.

During the academy, students engaged in hands-on learning activities that expanded their understanding of Texas history, government, and culture. They also collaborated with peers from across the state and developed skills for future success.

Education in Action, a 501(c)(3) nonprofit organization, is dedicated to helping young people become informed and active leaders in their communities. To recognize their achievement, the Board of Trustees and Dr. John Moore, Superintendent of Schools, presented each student with a certificate and medal on September 14, 2026.
