Reardan-Edwall School District #9 - Facility Advisory Committee
Summary Recommendation to the Reardan-Edwall School District Board

The mission of the Reardan-Edwall School District Facility Advisory Committee (FAC) is to create a long-term facilities strategic plan that is student focused and shows respect to our community. The FAC has developed a recommendation to present to the Reardan-Edwall School District Board (Board) for their consideration and approval. This recommendation is focused on improving the learning and social environment at the Reardan Middle School (RMS) and Reardan High School via a bond or levy. The FAC has included several recommendations for future improvements to the district.

Modernize High School (including vocational shop and track)
This project could include: New fan coils and ducting; new electrical infrastructure with increased capacity; new lighting; upgraded plumbing; remodel of interior finishes as determined necessary; new finishes (flooring, ceilings, paint); new doors and hardware; new double-pane windows; fire sprinkler suppression system; new gym roof; exterior paint for the high school and Vo-Ag buildings; the addition of awnings from the Commons to the High School, High School entryway, Elementary School drop-off area, and Elementary School to bus loop drop area; new gutters and snow stops on the roofs; install a new rubberized track; and new lockers in the High School hallways and gym locker rooms.

Middle School Addition w/multi-purpose room
Additional 9 MS classrooms on the main campus, or construct a small school of 6 classrooms on the NE property to free up classrooms on the main campus.

Transportation Cooperative
This project would include building a 10,500sf+ transportation maintenance facility on the Brommer Road property.

Other Projects (no timeline and not listed in order of priority)
The following projects are recommended by the FAC for grant or general funds:
-Projects through State Parks - Brommer Road and Town of Reardan Comprehensive Parks Plan.
-School Awnings (if not part of modernization projects)
-South playground and playfield upgrades.
-Updates to portable buildings (if not part of modernization projects)
-Wrestling room modernization & addition.
-Security and Safety Upgrades (if not part of modernization projects)
-Emergency Generators in both schools.
-Modernize Athletic Field Bathrooms
-Finish Tennis Court Refurbishment
