

NATIONAL HONOR SOCIETY

Romulus High School | Faculty Council Member Role

The Faculty Council gives every eligible student a fair, thoughtful, and confidential review.

CORE RESPONSIBILITY

Review each candidate's complete application and faculty input across scholarship, leadership, service, and character. Base decisions on documented evidence, not popularity, assumptions, or the number of spaces filled.

FACULTY COUNCIL MEMBERS ARE EXPECTED TO

1 Apply the same criteria Use the chapter's established selection criteria consistently for every candidate.	2 Review the whole student Consider the complete application and faculty input rather than allowing one response, incident, or opinion to determine the outcome.
3 Value quality over quantity Consider the meaning and significance of experiences, not simply the number of activities listed or spaces completed.	4 Recognize different opportunities Remember that students have different access to leadership, service, employment, transportation, and extracurricular activities.
5 Use objective evidence Base discussion and decisions on documented information rather than assumptions, reputation, popularity, or personal preference.	6 Request clarification when needed Identify when information is incomplete or unclear and determine whether appropriate clarification is needed before a decision.
7 Participate impartially Contribute thoughtfully to discussion and disclose any conflict of interest or circumstance that could affect impartial judgment.	8 Protect confidentiality Keep applications, faculty input, council discussions, and selection decisions confidential.

The goal is not to compare students by counting activities. The goal is to determine whether the complete evidence demonstrates the qualities expected of an NHS member.
