On Friday the 6th Grade STEM class participated in a competition called the *All-American Bridge Challenge*.

The rivalry was fierce with teams fighting it out to design a bridge that judges felt best included American principles of strength, aligned with British virtues of aesthetics - all with just popsicle sticks and glue!

In the end, the competition was tied between 2 teams on 13 points, but on the basis, there must be a winner, it went down to whose bridge could support the highest pressure. So, in second place, were Alex Tejada and Deegan Voss. That means the **2026 All-American Bridge Challenge Champions** are Lane Saunders and Hendrix Hustedt! Congratulations to the winners and a big thank you to all who participated.

Good luck to our Volleyball and Soccer teams today!
