CYBER SAFETY CLASSES - BROUGHT TO YOUR CAMPUS BY REGION 19

Region 19 is visiting every high school to empower students with the essential skills they need to stay safe online. Our interactive Cyber Safety classes are designed specifically for today's digital world and help students make smarter, safer choices on all platforms.

OUR CLASSES INCLUDE:

SOCIAL MEDIA DANGERS

Students learn how oversharing online, talking to strangers, and posting risky content can lead to privacy issues, bullying, and unsafe situations.

CREATING STRONG PASSWORDS

Students discover how to build strong, unique passwords using passphrases, symbols, and numbers to keep their accounts safe from hackers.

PERSONAL IDENTIFIABLE INFORMATION (PII)

We teach students what personal information is (like their name, address, school, or phone number) and why it must be protected from strangers online.

IDENTIFYING PHISHING EMAILS

Students learn to spot fake emails, suspicious links, and scam messages designed to steal their information.

WE COVER THE MOST CRITICAL TOPICS TEENS FACE EVERY DAY:

- Social Media Dangers – Understanding online risks, oversharing, and safe interactions
- PII (Personal Identifiable Information) – What it is and how to protect it
- Strong Passwords – How to create secure passwords that keep accounts safe
- Phishing Awareness – Spotting fake messages, suspicious links, and scams

These sessions are engaging, relevant, and tailored for high school audiences. Our mission is to equip students with the knowledge to protect themselves, their digital identities, and their future.
