Parents: In August, Idaho EdNews published the article, "ISAT Top 10s: Here are the best performers among districts, charters and online schools." In the article, Top 10 charts were included. We've included portions of each below. Once again, no matter if we're compared with all of Idaho's school districts/LEAs (~192) or all of Idaho's charter schools (85), Victory's academic outcomes place it in the top 10 lists in each category **(top four in ELA and top three in math!)**, as do the outcomes of our sister Harbor Method Schools in Nampa, Liberty and Legacy – **meaning Nampa's Harbor Schools make up three of Idaho's top 10 school districts/charters!** Additionally, in comparing outcomes with Idaho's top 10 traditional school districts, Victory was higher than them all by as much as 18% in ELA and 21% in math. This speaks volumes to the effectiveness of the Harbor Method educational model, the dedication by our teachers and support staff in carrying it out for our students' benefit, and your students' hard work. Thank you, parents, for your on-going interest, support and involvement in our school and your children's education. (To further compare Victory to specific schools in Nampa, Canyon County, or statewide, visit www.idahoschools.org.)

Top 10 Statewide

ELA Proficiency

District/Charter	% of Students Scoring Proficient or higher
1.Coeur d'Alene Charter, 6-12	95.3%
