Students Put Their Feedback to the Test!

During the **first week of the 2026–2027 school year**, Metz partnered with our students at both the **High School and Middle School** to conduct a taste test featuring new chicken products from **Pilgrim's Pride**.

The response was a **big two thumbs up!**
👍 👍 Students at both schools gave the new products very positive feedback.

But the best part? **Our students had a voice in the process!** They enjoyed participating in the taste test and were excited to know that their opinions were valued and could help influence future menu choices.

We look forward to conducting **more student taste tests in the future** and continuing to give our students opportunities to share their thoughts and help improve school meals for themselves and their peers.

🌟 **Congratulations to our Student Food Service Committee Members!**

Thank you for speaking up, sharing your opinions, and providing constructive feedback. **Your voice is making a difference!**
