

2028 Bond & Levy

Planning for Our Schools' Future Facility Needs

Tukwila School District is beginning the planning process to evaluate the District's long-term facility and capital needs in preparation for a potential 2028 Bond. As part of this process, we will evaluate facility needs, potential projects, project priorities, preliminary costs, and available funding options. This evaluation will also help determine which projects may be most appropriately funded through a bond, capital levy, or other available funding source.

No final project list or funding recommendations have been established. Additional information will be provided as the planning process progresses.

2028 BOND

PLANNING UNDERWAY

The District is beginning the process of evaluating facility and capital needs for a potential 2028 Bond.

Current Step:

Selecting a capital program management consultant.

2028 LEVY

FUTURE EVALUATION

A specific 2028 Levy program has not yet been developed. As capital needs are evaluated, the District will determine which projects may be appropriate for a bond, levy, or other funding source.

Current Step:

No specific levy program or project list at this time.

CURRENT PROCUREMENT OPPORTUNITY

Construction Program Management & Project Construction Management Services

RFQ Released: September 17, 2026 | SOQs Due: October 1, 2026 • 3:00 p.m. Pacific Time

All qualified individuals and firms, including minority- and women-owned firms, are encouraged to apply.
