Discussion on a Hot Spot for MAVA Students

Dr. Rowe led a discussion regarding potentially providing hot spots and internet access for students enrolled with the school district's cyber program in an attempt to keep current students enrolled within the school district's program and to possibly bring back students that are enrolled in cyber programs outside of the school district. The committee recommends providing hot spots to students enrolled in the school district's cyber program if requested by the student or their family.

The committee meeting was adjourned at 7:10 p.m.
