Brief History of Quality Schools International 20

Kyiv International School

Kyiv International School (KIS) is a nonprofit organization opened in September 1992. KIS offers a high-quality education in English language from preschool through Secondary IV graduation.

Facility

The building is located in an identified "Green Area" of Kyiv. It is located on expansive, professionally landscaped grounds and includes a library, learning center, modern classrooms with Wi-Fi, four science laboratories, a preschool wing, an art studio, a swimming pool, fitness center, two gymnasiums, climbing wall, recording studio, soccer field and running track, music classrooms, auditorium, campus snack bar, and a cafeteria. The building also has an indoor atrium spotlighting and a tropical garden.

Our campus features a comfortable safety shelter and a reliable generator that kicks in during power shortages which allows the learning process to keep on going smoothly.

Academic Program

The academic program uses a Performance-Based/Mastery Learning approach to education. This model ensures mastery of specific skills and knowledge involving both individual and group instruction. The educational philosophy is founded upon the premises that: all students can succeed; success breeds success; it is the responsibility of the school to provide the conditions for success.

Curriculum

The curriculum includes English (reading, grammar, composition, and spelling), Mathematics (basic and advanced skills), Cultural Studies (history, geography, economics, and political science), Science (physical, life and earth), Art, Music, and Physical Education. Intensive English classes are offered to students needing additional help with English. Technology use is integrated across the curriculum. A four-year Secondary program is offered that includes all subjects and a wide selection of electives leading to a high school diploma. In addition, individual Advanced Placement (AP) courses may be taken in specific areas that lead to an Academic with Honors diploma. Kyiv International School also offers a full International Baccalaureate (IB) Diploma Program.

Quality Schools International

Quality Schools International (QSI) is a nonprofit organization operating international schools in Europe, Asia, Africa, and Central and South America. Kyiv International School benefits from the unique opportunities afforded by this organized network of schools with over three decades of proven performance.

QSI Mission Statement

Our schools are established to provide a quality education, in the English language, for students in the cities we serve. These students are the children of parents of many nationalities who have come to a foreign country, usually for a limited stay of a year or more. Some students are permanent residents, citizens of the host country.

Our schools follow a logical model of education which measures success by the accomplishments and attitudes of our students. We believe that all of our students can succeed, that their successes encourage them to continue in a pattern of success, and that it is the schools' responsibility to provide the conditions for success.

These conditions include:

- Developing clear statements in measurable terms of what the student will do to demonstrate mastery of learning;
- Providing the time and resources needed for each student to attain mastery;
- Ensuring that students engage in learning at a level which is challenging and yet a level for which each student has the prerequisite skills necessary for success.

We believe in providing an aesthetically pleasing physical surrounding under the charge of a caring staff who believe their students will be successful, and who use time with the students as a resource for learning rather than as a boundary condition to determine when a unit of learning begins and ends.

We believe in providing resources such as books, learning materials, and educational technology. In the world today, children need to become proficient in the use of computers and related technology as tools to accomplish a myriad of tasks.

Finally, we believe in working with parents to encourage our students to adopt qualities of living which lead to success long after formal schooling has ended. These include universally accepted "success orientations" of trustworthiness, kindness/politeness, responsibility, independent endeavor, concern for others, group interaction, and aesthetic appreciation.

Educational Program

Entry Ages and Placement

To enter the 5-year-old class, a child will have completed 5 years of age no later than the 31st of October. This pattern is applied to the other classes in the school. If an exception is requested, documentation that supports the student's academic need is required, and the Director will make the final decision after consultation with parents and teachers. If an exception to the policy is made, it will be documented and signed by the parents and school administrator, and placed in the student's permanent file.

Secondary-age students are placed into Secondary I by age (14 years old by the end of October), even though secondary students may be engaged in some elementary units. Progress through the secondary levels is determined at the beginning of each school year by the number of credits attained.

Preschool (2-4-Year-Old) Program

Students participate in a variety of play-related and hands-on experiences designed to develop learning readiness, physical coordination and development, and the social skills necessary to be successful in a classroom setting.

Emphasis is placed on the development of self-confidence, self-esteem, and natural excitement to learn. A full spectrum of activities is provided including music, technology, art, and play.

5-Year-Old Class

This academically-oriented program develops skills and attitudes children need in the study of the academic disciplines. A variety of experiences develop eye/hand/body coordination, reading readiness, simple number concepts, and oral and written language skills. There is continued emphasis on personal development through exposure to varied activities including music, technology, art, and physical education.

Elementary (6-10-Year-Old) Classes

Elementary school students take a full program of mathematics, literacy (reading and writing), science, culture studies, technology, art, music, physical education, and drama. Technology usage is integrated within the curriculum at all levels. Spanish, French, German, and Ukrainian are available for native speakers and as foreign languages.

Middle School (11-13-Year-Old) Classes

This program meets the needs of students in the 11-13-year-old age group. Students take a rigorous academic program of mathematics, literacy (reading and writing), science, cultural studies, art, music, and physical education. Spanish, French, German, and Ukrainian are available for native speakers and as foreign languages. Technology is offered as an elective course. Qualified students may enrol in secondary classes for graduation credit if appropriate, and with approval.

Secondary I-IV Classes

The secondary program prepares students for colleges and universities in the United States or other countries. Classes are individualized, closely monitored, and supervised on campus. The rigorous academic program consists of mathematics, science (biology, physics, and chemistry), world cultural studies, history, economics, literature, writing, art, music, physical education, French, German, Spanish, Ukrainian, and technology.

Each student is required to complete a year-long research project in the last year of their Secondary program. Advanced Placement (AP) courses are offered for college credit in selected areas.

Secondary students can attain an Advanced Placement (AP) Diploma or The International Baccalaureate (IB) Diploma.

For more information about each level instructional program, visit the QSI website under the Academics menu.

QSI Virtual School

QSI Virtual School (QVS) is an important part of QSI, providing high-quality online courses designed for secondary school students. It offers a wide range of courses that may not be available on physical campuses due to factors such as school size, class availability, scheduling conflicts, or specific student interests. This allows QSI students to access courses that meet their individual educational needs and support their personalized graduation plans.

QVS offers an extensive course catalog tailored to meet the diverse needs and academic goals of its students. This includes over 30 Advanced Placement (AP) courses, among them the prestigious AP Capstone courses: AP Research and AP Seminar. The school operates year-round, including a full summer program for students who want to get ahead. Students can choose paced courses that follow regular school terms or flexible courses with rolling admissions, ideal for credit recovery or completing full courses anytime during the year. Additional information about QVS and its course offerings can be found at https://qvs.qsi.org/.

Educational Model Summary

Keys to Success

Success-Oriented Learning

The school's educational structure is based upon student performance and mastery learning. The Performance-Based/Mastery Learning approach recognizes human characteristics and enables the student to be placed in learning environments according to achievement levels. This approach facilitates matching the students' skills and needs with the academic program. The implications are profound for student attitudes and learning. The school is dedicated to this concept.

Performance-Based

The curricular model used is a "Performance-Based" approach to education. The content of each academic discipline is divided into specific student expectancies or "Essential Units". An "Essential Unit" contains specific concepts or skills. Teachers give instruction and guidance for the essential unit using appropriate materials and activities, and when the essential unit is completed, assess for student mastery. Records are maintained documenting individual student progress and credentialing.

Mastery Learning

In this research-validated model each Essential Unit is taught with a view to excellence. When students demonstrate mastery of the essential unit, they move on to the next essential unit. If the student does not achieve mastery, the teacher re-teaches, and the student revises as necessary. When the students demonstrate mastery, they are rewarded with an "A" or "B". Thus, a student never "fails" in the traditional sense. Instead, he/she proceeds logically through the curriculum at a pace determined by his/her mastery of the material.

Success Orientations

"Success for All" is the motto of QSI Schools. Personal habits and the ability to interact successfully with others are deemed as valuable as the knowledge and competencies students learn. Success orientations are actively encouraged in virtually all areas of the school curriculum with the view of making them a vital part of one's life pattern. Evaluations of the success orientations are limited to situations within the jurisdiction of the school and are made by a consensus of the professional staff members.

Success Orientations are grouped under the headings of:

- Responsibility
- Trustworthiness
- Group Interaction
- Aesthetic Appreciation
- Kindness and Politeness
- Independent Endeavor
- Concern for Others

Student Evaluation

Evaluations and rewards for student progress should take place as soon as possible after mastery is demonstrated for each unit outcome.

- **All Students can succeed**
- **Success breeds success**
- **It is the school's responsibility to provide the conditions for the student's success.**

With this in mind, Quality Schools International does not accept mediocre (grade of "C") or poor (grade of "D" or "F") work. The grades of "A" and "B" are mastery grades, and indicate that a student has successfully mastered the learning objective and is ready to build on that learning. The evaluations issued in the written status reports are defined as follows:

A	All essential parts of the outcome were mastered at an appropriately high level. The student consistently demonstrated noteworthy achievement of a high quality, particularly in the higher order thinking or performance skills.
B	All essential parts of the outcome were mastered at an appropriately high level in which the student successfully engaged in higher order thinking or performance skills.
P	The student is "In progress" in the outcome (normal status).
H	This outcome is "on hold" for a legitimate reason. (The student has begun the outcome but is not currently pursuing it.)
D	The student has not made a reasonable effort and is therefore "deficient" in attaining mastery of the outcome.
E	"Exposure". The student made a reasonable effort in the outcome and attained a level of mastery consistent with his/her capabilities. (Elementary classes only, but not in mathematics, reading, or writing.)
W	The student has withdrawn from this outcome.

In Secondary school, students are granted one credit for mastery of each unit outcome which is credentialed "A" or "B". Thus, ten credits correspond to one "Carnegie Unit" as used by many American secondary schools. Because Quality Schools International encourages continued learning, if students receive an evaluation of "B" on a unit outcome, they may continue to work independently in that outcome and request another opportunity to demonstrate a higher level of mastery. If demonstrated, the evaluation may be changed from a "B" to an "A" within the same school year.

Evaluations, called status reports, are issued to all students five times each year (at the end of each "quintile"). However, parents may request a status report for their child at any time.

QSI Philosophy and Objectives

Attitudes Toward Learning

We believe that more learning will occur if the student has a desire to learn, has positive feelings concerning his school environment, and succeeds in his work. A comfortable atmosphere of caring and acceptance established by the school is considered important, so that each student is encouraged to strive for excellence and to be creative. This is enhanced by an aesthetically pleasing environment with a view to appreciation of beauty and order. Each student's possibility of success increases when the student works at the appropriate level of difficulty and senses positive expectations from his teachers.

Functions of the Administration:

- To recruit teachers who have a love for children, who have positive expectations of children, and who are willing to give the time and energy necessary to meet the needs of individual students.
- To employ teachers who have acceptable values and who believe that their life style should be a positive influence on their students.
- To employ teachers directly from outside of the country, if necessary, to provide experienced and successful teachers for specific positions.
- To employ enough teachers to maintain reasonably small class sizes.
- To help teachers meet the individual needs of students by employing selected paraprofessionals.
- To provide spacious buildings and classrooms which are functional yet include local architectural designs with a view to blending into the local environment.
- To test each student in reading and mathematics upon initial enrollment to ensure a proper entry level in these classes.
- To encourage parental support of the school with a view to enhancing the learning and the development of positive attitudes of the students.

Functions of Teaching Staff:

- To continually assess the student in all areas of learning to ensure appropriate learning tasks leading to challenging work, but work in which he is capable of experiencing success.
- To ensure that the student knows what learning tasks are expected.
- To provide appropriate learning experiences and allow each student sufficient time on a task to be able to experience success.
- To provide additional learning experiences, if mastery is the goal and if the task is not mastered after the initial teaching/learning experience.
- To reward students equally for mastering learning tasks regardless of the path taken to mastery. Not to give a higher reward to one who required a greater input of energy nor to one who easily and quickly attained mastery.
- To evaluate students in a way in which a student competes against himself rather than against a fellow student.
- To inspire students to help them see what they can be and what they can accomplish with a view to excellence and creativity.
- To provide a positive school atmosphere by working with a cooperative spirit, giving support to one another, and encouraging a high morale and efficiency within the staff.

Areas of Learning

- To provide learning situations leading to mastery of appropriate topics in English and mathematics for all students.
- To provide quality instruction in science and cultural studies for all students.
- To offer quality programs of instruction in physical education, music, and art to all students.
- To provide classes in Intensive English as appropriate.
- To offer local and foreign languages as appropriate.
- To offer selected courses in national studies including non-English languages as appropriate, with a view to the needs of particular nationalities and to academic adjustment upon repatriation.
- To offer courses in technology to all students.
- To offer varied activities and elective classes which are not part of the regular academic program.
- To involve students in field trips and activities related to their classes, but away from school.
- To provide the appropriate materials, resources, and equipment for all areas.

Social Behavior

- To encourage an understanding of one's self with a view to developing acceptable values such as patience, kindness, unselfishness, honesty, and consideration for others.
- To provide a positive and secure atmosphere, treating the students honestly and fairly.
- To encourage each student to feel good about himself and to help him promote similar feelings in fellow students.
- To provide guidance in problem-solving and decision-making situations.
- To develop a sense of responsibility and to encourage leadership.

Cultural Awareness

- To encourage each student to recognize in a positive way his own nationality.
- To provide an atmosphere of cultural acceptance and understanding with a view to building healthy international relationships.
- To integrate into the curriculum studies of the local region and the country itself.

Environmental Awareness

- To develop an awareness of environmental concerns such as overpopulation, pollution, waste of natural resources, destruction of wildlife and natural areas, and personal health.
- To promote a concern for the protection of the environment. To provide activities and projects for students which involve them in improving the environment.

Digital Literacy

At QSI, we leverage digital technologies to create innovative learning opportunities while ensuring their ethical and responsible use. Students may use personal computers, tablets, cameras, calculators, robots, 3D printers, software, web applications, and augmented or virtual reality. By integrating these tools, we enhance learning and prepare students for a dynamic, technology-driven world.

Special Services

Learning Support Center

The Learning Support Center at KIS supports students in need of academic assistance. We provide additional instructional strategies and help students in their educational, emotional, social and behavioral development.

Extra-Curricular Activities

- Secondary Student Council, Knowledge Bowl, Football, Basketball, Volleyball, Speech & Debate, Chess Club, Art, Drama, and a wide variety of other activities.
- Kyiv International School is a full member of The Council of Eastern and European Schools Association (CEESA). This allows Middle and Secondary students the opportunity to be involved in international sports competitions.

Language Programs for 7-year-olds through Secondary IV

French, German, Spanish and Ukrainian as foreign and native languages.

Programs

Advanced Placement Courses

Advanced Placement (AP) courses are available both on campus and through QSI Virtual, covering a wide range of subjects.

International Baccalaureate

The International Baccalaureate (IB) Diploma Program is offered for Secondary students.

Learn Through Play

"Learn Through Play" activities are a key part of the elementary schedule, offering engaging experiences that support social, emotional, and physical development.

Week Without Walls

Week Without Walls is an adventure based, experiential education program offered to Middle School and Secondary School students. These trips take place in May - June.

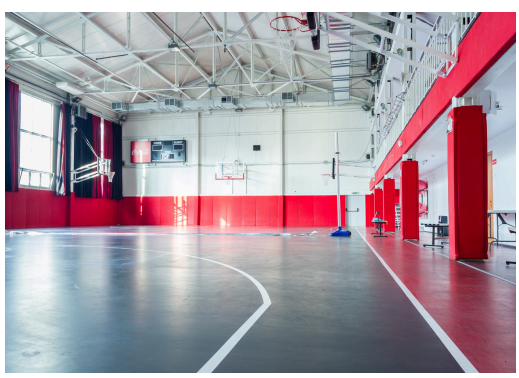

EMPOWER: Skills for Safety, Success and Global Citizenship

The QSI child development program prepares students for success both inside and outside the school environment by systematically teaching three key components — Success Orientations, Social-Emotional Learning (SEL), and Child Protection. The program cultivates leadership, confidence, creativity, and collaboration skills.

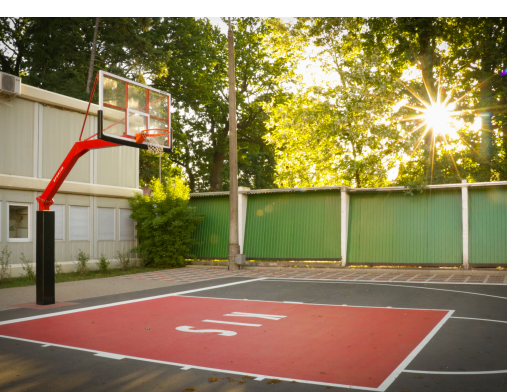

Facilities

Kyiv International School has a vibrant and exciting campus life which is focused on providing students with the opportunity to get involved and be active:

- A library with over 40,000 volumes with computer-automated circulation services
- Four science laboratories for experimental science
- Three modern, newly equipped, computer laboratories for technology instruction and classroom projects, including coding, robotics, and 3D printing
- Two preschool and elementary playgrounds. Indoor multi-purpose room
- Fitness center
- Auditorium with 350 seating capacity
- Two indoor gyms with basketball/volleyball/badminton courts
- Outdoor soccer field, mini soccer pitch, track, and outdoor basketball court
- Indoor swimming pool for students
- Climbing wall and climbing cave
- Music and podcasting recording studio.

Getting Started

Admission
Admission to Kyiv International School requires submission of an application form, a copy of passport or birth certificate, previous school records (if applicable), and payment of a non-refundable USD $600 registration fee.

Student Placement
Following official admission procedures, a placement examination is given to each student to determine the appropriate level of instruction. The test involves reading, writing, and mathematics.

Transportation
The school offers round-trip bus service for a fee. The routing locations can be obtained from the school's Bus Coordinator. School transportation does not service the Left Bank and some other areas of Kyiv. Students who subscribe for transportation are eligible to use the activity bus when they are involved in after-school activities.

Cafeteria Services
The school cafeteria offers a healthy lunch (meal with three hot items, drink, soup or salad, and dessert) for students. This includes take-out lunches for day excursions. Children may eat at the cafeteria or bring their lunch from home.
A variety of snacks are available at the school's cafeteria and/or Snack Café. The Snack Café is only open for students 12 years old through Secondary IV during breaks. All students may bring a snack from home.

Staffing and Governance

Governance
Quality Schools International, a nonprofit, private educational organization, manages the school. A Director administers Kyiv International School on site and leads the educational program. An appointed Advisory Board supports the school in the community.

Parent Teacher Organization (PTO)
The PTO is a parent group involved in activities and projects with a view toward school improvement. All parents are encouraged to become actively involved with the school.

Staffing
QSI hires qualified and experienced educators who enjoy working with children and teenagers. Each educator hired has the expertise to administer the QSI curriculum and strives to help students reach their academic goals.

School Schedule

2-4-Year-Old:
8:30 a.m. – 4:00 p.m.

5-Year-Old through Secondary:
8:30 a.m. – 4:00 p.m.

Reporting

Progress Reports
"Status Reports" are sent home five times a year (once each Quintile). Student mastery of the curriculum is reported as either "A" or "B", and units in progress are reported as "P".
Parent-teacher-student conferences are scheduled three times per year, once each term.

Narrative Reports
Narrative reports are sent home for students in the 5-Year-Old Class through Secondary IV at the end of the first term and at the end of the school year.

Affiliations

Membership
Quality Schools International is a member of the Central and Eastern European Schools Association (CEESA) and a member of the Association for the Advancement of International Education (AAIE). Kyiv International School is also a member of the International Baccalaureate Organization (IBO).

MSA Systems Accreditation
In April 2022, Quality Schools International and all existing QSI schools achieved accreditation as a school system through the Middle States Association of Colleges and Schools (MSA). Working toward the Achieving Excellence System-Wide accreditation encouraged QSI to reflect on where we are now and where we want to be in 5-7 years. QSI and our school will maintain our accreditation through a continual process of identifying areas for growth and implementing community-supported action plans to achieve the growth targets. You can find our four primary objectives, action plans, self-study and our Official Notice of Accreditation on the QSI website at https://www.qsi.org/why-qsi/accreditation.

School Calendar 2026-2027

1 First Term

Number of school days: 73

First Day: 20 August (Thursday)

Last Day: 11 December (Friday)

Holidays:
Independence Day: 24 August
Defender Day of Ukraine: 1 October
Fall break: 12 October - 16 October
Winter break : 14 December - 1 January

Parent-Teacher Conferences (no school): 10 October
Professional Development Days (no school): 19-20 November

Quintile 1: 20 August - 19 October
Quintile 2: 20 October - 10 December
Quintile 3: 11 December - 19 February

---

2 Second Term

Number of school days: 54

First Day: 04 January (Monday)

Last Day: 26 March (Friday)

Holidays:
February break: 22 February - 26 February
International Woman's Day: 8 March

Student Advocacy Conferences: 16 January

Quintile 4: 1 March - 27 April

---

3 Third Term

Number of school days: 53

First Day: 29 March (Monday)

Last Day: 18 June (Friday)

Holidays:
Spring break: 13 April - 17 April
Labor Day: 3 May
Day of Remembrance and Reconciliation: 10 May

Student-Led Conferences: 15 May

Quintile 5: 28 April - 18 June

Tuition Fees 2026-2027

Kyiv International School's standard annual tuition is $21,000 (before 2022). In response to the ongoing war in Ukraine, KIS continues to reduce its fees in order to support the community.

Registrations Fee

There is a non-refundable registration fee of **US $600** for all students.

5 Year-Old Class and Above

Late enrolment fee $900

1 Term	2 Term	3 Term	**Annual** (Reduced)
US $7,800 Due date: 21 Aug	**US $5,900** Due date: 11 Dec	**US $5,900** Due date: 26 Mar	**US $19,600**

2, 3 and 4 Year-Old Class (Full Day Only)

Late enrolment fee $900

1 Term	2 Term	3 Term	**Annual**
US $4,400 Due date: 21 Aug	**US $3,500** Due date: 11 Dec	**US $3,500** Due date: 26 Mar	**US $11,400**

Capital Fund Fee

The Annual Capital Fund fee of $1,600, paid yearly in addition to tuition, and applies to **age groups 5 years old and above.**

You can choose to pay the full amount at once or split it across three terms: $600 for the first term, $500 for the second term, and $500 for the third term.

Transportation

Round Trip Service

1 Term	2 Term	3 Term	**Annual**
US $800	**US $600**	**US $600**	**US $2,000**

School Fee Policy

Fees and Scholarships apply only to this school and do not apply to other QSI schools.

Partial Term

In the event a student enters after October 1st, the fees will be calculated based on the date of entry plus registration fee and Mid-Year Enrolment fee.

If a student enrols in Term 2 or 3, they will be charged the Registration Fee - $600 and Mid-Year Enrolment Fee - $900 as stated in the fee policy.
*** Mid-Year Enrolment Invoices are calculated according to the following: Tuition and Capital Fund Fees are calculated based on the entry date for that Term plus remaining full Term/s.
Daily Rate = Number of days left in term * Total Year Fees / 180

The $600 Registration Fee is non-refundable, payable upon enrolment. Any QSI student transferring to another QSI school does not pay the Registration Fee if continuously enrolled.
*** If a student withdraws for one or more complete term/s and returns, then the Registration Fee is paid again.

Mid-Year Enrolment is $900 for all students including scholarship and preschool students.

Full Tuition Fee, Capital Fund Fee, and Mid-Year Enrolment Fee will be refunded if a student withdraws within the first 5 days of their current term. There is no refund after 5 days of enrolment in a term. However, refund will be available for remaining terms if they have been paid for.

Examples

A ten-year-old student enrols after October 1st. The fees are charged as follows:

- 1st Term: Registration Fee plus calculated Term 1 Tuition and Capital Fund Fees based on date of entry plus Mid-Year Enrolment Fee
- 2nd Term: 2nd term Tuition and Capital Fund Fees
- 3rd Term: 3rd term Tuition and Capital Fund Fees

A nine-year-old student enrols in January:

- 2nd Term: Registration Fee plus 2nd term Tuition and Capital Fund fees plus Mid-Year Enrolment Fee
- 3rd Term: 3rd term Tuition and Capital Fund Fees

Examples

A nine-year-old student enrols in January and withdraws withing 5 days of enrolment:

- 2nd Term: Full refund for Tuition and Capital Fund fees. Registration Fee and Mid-Year Enrolment Fees are non-refundable
- 3rd Term: Refund for 3rd term Tuition and Capital Fund Fees if previously paid

---

A nine-year-old student enrols in January and leaves in April:

- 2nd Term: No refund
- 3rd Term: Refund for 3rd term Tuition and Capital Fund Fees if previously paid

School Absences

There is no reduction of school fees for absenteeism for any reason, including home leave holidays, unless a student officially withdraws. If a student withdraws, the student may re-enrol at any time and be invoiced like a new student. The registration fee is not required upon re-entry.

Capital Fund Fee

The purpose of the Capital Fund Fee is to provide financial support for the school's facilities and development program, present or future. This may include the purchase of fixed assets such as computers, furniture, vehicles, and other items.

Payments

Payment information will be provided by the school.

Payment, or arrangement for payment, must be made on or before the due dates. Students will not be allowed in class if the financial matters have not been completed.

In cases in which fees, or any other funds owed to the school, are delinquent, and the parent has not made arrangements for payment, student evaluations will be withheld until the fees are paid. Also, no official school communications or records will be issued to the student or parent, nor sent to other schools, when fee payments are not current.

Force Majeure

In the event of force majeure that causes a student or students to be withdrawn from the school, the fees already paid in full for the school year will not be refunded, or if unpaid, will be due. This policy is necessary to protect the school's financial interests with a view to continuing operations after the force majeure event has passed. Any appeals resulting from the application of the policy will be resolved by the Advisory Board of the school.

QSI Statement of Inclusion

QSI is open to all students. We respect their diversity regardless of race, ethnicity, gender, cultural background, disability, religion, personal beliefs, and socioeconomic status. QSI employees will be considerate of diverse cultural and family beliefs when teaching in the classroom. In QSI schools, we provide a safe and supportive environment for all students.

QSI Child Safeguarding and Protection Statement

QSI Schools adhere to the CEESA Safeguarding and Child Protection Statement and Commitments as written below.

QSI Safeguarding and Child Protection Statement:

- Safeguarding and Child Protection is a priority for every QSI School.
- QSI commits to supporting school environments that safeguard children through both prevention and intervention.
- QSI works in cooperation with international agencies to ensure standards associated with best practices are regularly reviewed, revised, and applied in all operations, activities, and events.
- QSI leaders honor and uphold child protection guidelines and procedures in partnership with all stakeholders in their respective school communities.

All QSI schools will:

- Actively uphold the QSI Safeguarding and Child Protection Statement.
- Implement school-based Safeguarding and Child Protection Policies and Procedures that include regular onsite training.
- Employ safe recruitment practices consistent with Safeguarding and Child Protection Policies.
- Educate students and adults on Safeguarding and Child Protection.

Empower: Skills for Safety, Success, and Global Citizenship:

A comprehensive QSI child development program that helps to prepare students to live successfully and safely in and out of the school environment. The goal of this curriculum is to systematically teach QSI Success Orientations, along with related social-emotional skills, and child protection strategies at developmentally appropriate age levels.

Students need to develop the many good habits and skills that lead to being successful by practicing leadership, confidence, creativity, and the capacity to collaborate with others.

This program teaches students these habits and skills in three components: Success Orientations, Social-Emotional Learning, and Child Protection.

Brief History of Quality Schools International

Sanaa International School

Sanaa International School opened in September 1971 with four students and grew to over 200 within a few years. The school's early history is related to the founder's first assignment in Yemen. In 1966-67, Mr. James E. Gilson was employed as principal of the YemenAmerican Cooperative School in Taiz, Yemen. In May of 1967, the American community was evacuated, and the school ceased operations. Mr. Gilson, encouraged by the friendliness and hospitality of the people of Yemen, had a desire to return. In the summer of 1971, as Mr. Gilson was completing a two-year assignment as the Principal of Nairobi International School in Kenya, the civil war in Yemen finished. Missionary friends of Mr. and Mrs. Gilson, Wolfgang and Beryl Stumpf, whom Mr. Gilson met in 1959 during his time with the US Army in Eritrea, encouraged them to return to Yemen to start an international school in Sanaa.

After discussions with key people in Sanaa, it became apparent that there was a need for a school. Therefore, Mr. Gilson accepted a teaching position in Saudi Arabia, hired a teaching couple to go to Yemen, and was able to financially guarantee the first year of Sanaa International School. The school grew to about 25 students in that first year making it possible for Mr. and Mrs. Gilson and their two sons, Marcus and Kevin, to move to Yemen in July 1972.

In 1974, the school's Advisory Board, composed of leading expatriates and Yemenis, joined by a few others in Sanaa, met and formulated the school's Articles of Organization and ByLaws. This established the school as a nonprofit organization and formed a Board of Directors. Accurate accounting records have been kept throughout the school's existence. As a nonprofit entity, the school has been able to receive grants, loans, and land.

As early as 1972, it was foreseen that a purpose-built facility should be constructed. After three years of discussions and meetings at many levels, the Yemen Government granted the school its present 35 acres (about 14 hectares) gratis for a period of fifty years. Many individuals of the Yemen Government, the American Government, the United Nations, and the German Government gave considerable assistance in time and influence to obtain this land that was occupied on 22 December 1976. Construction began on 1 January 1977. A formal agreement with the Yemen Government was signed on 7 May 1977 that included the land grant, as well as a tax-free status for foreign employees of the school.

The building program and site development included the school buildings, two water wells, one residential home, a workshop, and playground development (including a tennis court and a softball field with an outfield fence). In the fall of 1992 a new domed, carpeted auditorium/sports area was put into use, that was surrounded by large classrooms.

The educational program has progressed from the philosophy brought by the first teachers to a structured, performance-based model first implemented in the fall of 1987 in the secondary section. By the autumn of 1989, the entire school was performance-based. Formal accreditation was granted by the Middle States Association of Colleges and Schools on 24 April 1987. Due to the presence of Al-Qaida in parts of Yemen that put our foreign staff in danger of kidnapping, the school was closed after the 2014-15 school year.

It is sad to report that on 29 December 2015 during another civil war, a bomber from the neighboring country dropped a bomb during the evening that destroyed the domed building. Thankfully, no one was in the building at the time. Requests seeking financial compensation for damages have not been recognized nor answered.

Quality Schools International

Quality Schools International has a recent history. In 1991, the political structure of the world began a rapid transition. Great changes took place in the former USSR and in areas formerly under its sphere of influence. Combining this recent history with experience in the school restructuring process leading to higher success in schools, QSI was launched.

Mr. H. Duane Root, QSI Board of Directors, and Mr. James E. Gilson, President Emeritus of QSI, co-founded Quality Schools International as a nonprofit educational organization with a view to offering opportunities in education for expatriates in new countries.

In May of 1991, Mr. Gilson traveled to Albania to have a look at a country just emerging from over 45 years of dictatorial rule. During his time there, he met some key people in the Tirana community and made a decision to begin Tirana International School. This expansion has resulted today in an organization offering excellence in education with 36 schools in 31 different countries on five continents.

QSI Headquarters is in Malta. The current QSI President, Dr. Karen Hall, lives in Malta and manages headquarters. This is also the location for the Personnel, Finance, School Operations, Information & Communications, Curriculum & Resources, and Technology departments of QSI. The current QSI Vice-Presidents, Mr. Matt Lake and Mr. Tim Kruger, also live in Malta.

QSI Regional Supervisors are located in regional locations. These five Regional Supervisors provide guidance and support to designated QSI schools.

QSI United States Business Office is located in Centreville, Michigan, USA. This office expedites financial transactions for QSI.

QSS (Quality Schools Services) is located in Wilder, Idaho, USA. The following offices are housed there: Shipping Manager and Shipping Assistants. QSS provides services for ordering, collection, and shipping of school materials to most QSI schools.

It is an exciting time to be in the world and to be involved in education! QSI looks forward to providing excellence in education for international children living in many countries and to providing career opportunities for caring and competent educators.
