

The Automated Time Tracking Solution That Improves Payroll Accuracy.

There is an easier way to manage time for your district.

Let the use of **Geo-Fence** ease your frustrations....

- Design and edit your selection zones
- Multiple zones

Too many school districts across New York State are overwhelmed by the costly, manual administration of time and attendance tracking.

Timepiece, with its ultra-performance biometric clock, automates time and attendance processes from punch-in to paycheck, giving you a more efficient workflow solution for managing staff, preparing accurate payrolls, and reducing time and labor costs... ***without all the unnecessary paper!***

Timepiece. It's from Finance Manager, your trusted source for workflow solutions for over 35 years. Request your demo today!
