

CAREER & TECHNICAL EDUCATION PROGRAM

Drafting CAD Technology

Develop career-ready skills in technical drafting, CAD, standards, and design.

Program Description

This program prepares students for an entry-level position in the career field of drafting through instruction in the use of industry-recognized drafting technologies. The content for this program is developed with support from an industry advisory committee to allow students the opportunity to gain workforce entry-level skills. This program offers students opportunities to meet career objectives by focusing on standards, drafting practices, and skill development in the use of computer-assisted drafting (CAD).
