New York State Housing Questionnaire

Identifying and serving students in temporary housing under the McKinney-Vento Act and NYS Ed Law §3209

This form is to be completed when a student first enrolls, and any time a change in housing status occurs. There are no wrong answers. This form may be filled out independently, or the McKinney-Vento Liaison can assist. To access a list of McKinney-Vento Liaisons, please visit <https://www.nysteachs.org/liaisons>

About this form and your rights

Schools are required by federal and state law to identify students living in temporary housing and ensure they can enroll, attend, and succeed in school. The **McKinney-Vento Homeless Assistance Act**, together with **New York State Education Law Section §3209**, protects students and families who no longer have a permanent, stable place to live; families who have lost housing; are staying with others temporarily; or are living somewhere that was never meant to be a home.

Eligible students have the right to:

- ✓ Stay in the school they attended when last permanently housed (called the school of origin), for as long as they are in temporary housing.
- ✓ Immediately enroll in the local school where they are temporarily staying (the school of current location).
- ✓ Enroll and start school right away, even without a birth certificate, proof of residency, immunization records, or school records.
- ✓ Receive free transportation to and from the school of attendance, as well as after-school activities (If within 50 miles).
- ✓ Receive free school meals without income paperwork as well as access to other school services including McKinney-Vento Grant resources, if available.

This information is confidential and will be shared only with school staff who have a legitimate educational need to support student access to McKinney-Vento rights and services. Providing this information is voluntary and will be used only to determine eligibility for services under the McKinney-Vento Act and NYS Education Law §3209. Please note that this information will not affect your immigration status, your child's enrollment, or your eligibility for other school services.

1. Demonstrated serologic evidence of measles, mumps or rubella antibodies or laboratory confirmation of these diseases is acceptable proof of immunity to these diseases. Serologic tests for polio are acceptable proof of immunity only if the test was performed before September 1, 2019, and all three serotypes were positive. A positive blood test for hepatitis B surface antibody is acceptable proof of immunity to hepatitis B. Demonstrated serologic evidence of varicella antibodies, laboratory confirmation of varicella disease or diagnosis by a physician, physician assistant or nurse practitioner that a child has had varicella disease is acceptable proof of immunity to varicella.
*Serological titers are never accepted for tetanus, diphtheria, pertussis, meningococcal, haemophilus influenzae type b, and pneumococcal diseases.
2. Diphtheria and tetanus toxoids and acellular pertussis (DTaP) vaccine. (Minimum age: 6 weeks)
 - a. Children starting the series on time should receive a 5-dose series of DTaP vaccine at 2 months, 4 months, 6 months and at 15 through 18 months and at 4 years or older. The fourth dose may be received as early as age 12 months, provided at least 6 months have elapsed since the third dose. However, the fourth dose of DTaP need not be repeated if it was administered at least 4 months after the third dose of DTaP. The final dose in the series must be received on or after the fourth birthday and at least 6 months after the previous dose.
 - b. If the fourth dose of DTaP was administered at 4 years or older, and at least 6 months after dose 3, the fifth (booster) dose of DTaP vaccine is not required.
 - c. Children 7 years and older who are not fully immunized with the childhood DTaP vaccine series should receive Tdap vaccine as the first dose in the catch-up series; if additional doses are needed, use Td or Tdap vaccine. If the first dose was received before their first birthday, then 4 doses are required, as long as the final dose was received at 4 years or older. If the first dose was received on or after the first birthday, then 3 doses are required, as long as the final dose was received at 4 years or older.
 - d. For further information, refer to the [Catch-Up Guidance for Children 4 Months through 6 Years of Age](#).

 - d. For children with a record of OPV, only trivalent OPV (tOPV) counts toward New York State school polio vaccine requirements. Doses of OPV given before April 1, 2016, should be counted unless specifically noted as monovalent, bivalent or as given during a poliovirus immunization campaign.
