Board Regulation r5600 re: District Code of Conduct

*Please note if there is a conflict between the rubric and BOE policy or regulation, the rubric will be the prevailing document to guide student consequences.

Notes:

- Consequences apply to events that occur on school property and at school events on or off school property
- Students may be disciplined for off-campus conduct in accordance with N.J. Code
- Suspension refers to both in-school suspension and out-of-school suspension
- Severity Clause: Any action causing physical harm, the serious threat of physical harm, or language used in a profane and derogatory manner should be sent immediately to an administrator
- While the possible consequences for any given infraction are delineated and non-exhaustive, the appropriate chosen consequence doesn't necessarily have to be sequential, and will ultimately be determined by the school administrator/ designee. The code of conduct chart above shall serve as a general guideline which the administration may deviate from depending upon the circumstances.
- This code of conduct and its use is independent of behaviors falling within the realm of Harassment, Intimidation, and Bullying, which will be handled on a case-by-case basis as defined by law.

Mount Olive School District Attendance Policy

Policy 5200

The compulsory education law (N.J.S.A. 18A:38-28 through 31) requires all children between the ages of 6-16 to attend school. The attendance regulations (N.J.A.C. 6A:16-7.6), require each district board of education to develop, adopt and implement policies and procedures regarding the attendance of students, including the adoption of a definition of "unexcused absence" that counts towards truancy.

Student absenteeism can lead to low academic achievement, dropping out of school, delinquency and gang involvement. School districts that have established multi-systemic approaches and policies pertaining to student absenteeism typically experience fewer numbers of dropouts and a greater number of graduates.
