

District/School Practice Resources

Educator Question Bank

Focused practice with official questions. The Educator Question Bank (EQB) provides official SAT Suite questions that can be filtered into targeted sets. It also includes answer rationales to support instruction and understanding.

Bluebook Practice Tests

Experience test day in advance. The Bluebook testing app includes full-length practice tests that simulate the digital SAT environment, helping students build familiarity and confidence prior to exam day.

Khan Academy

Personalized SAT practice. Students can access free PSAT-related assessments and SAT prep, with optional account linking to create customized study plans based on their test scores.

Student Readiness Check

Prepare with confidence. The Readiness Check can be completed at school or at home using the Bluebook™ app. Students can explore the testing platform, verify device compatibility, learn about the BigFuture® School mobile app and Connections™, access scholarship opportunities, and select up to four free score send institutions.

K-12 Reporting Portal

Data-driven insights for educators. The Reporting Portal enables educators to access and analyze student practice test reports & score reports, download data files, and connect to additional tools that support instructional planning.

Skills Insight

Targeted academic support. This College Board tool helps educators interpret student performance by linking SAT score ranges to specific skills and knowledge areas, allowing for more focused instruction and intervention.
