SCHOOL DISTRICT

District Additional Assistance Override

Frequently Asked Questions

1 What is a “District Additional Assistance Override” (Capital Override)?

A District Additional Assistance (DAA) Override allows school district voters to approve the maintenance of resources such as technology upgrades, replacements, and enhancements, curricular materials, and furniture, fixtures and equipment (including classroom safety resources). The DAA override would allow the district to continue the 10% (not to exceed \$2.9 Million) District Additional Assistance Override originally approved by voters in 2014. If approved, the election authorizes this funding for an additional seven years.

2 Has the district been operating under a “District Additional Assistance Override” (Capital Override)?

Yes, Creighton School District has been operating under a 10% (not to exceed \$2.9 Million) District Additional Assistance Override authorized by voters in 2014 and 2020.

3 What does the “District Additional Assistance Override” (Capital Override) pay for?

Increasing and/or maintaining access to:

- Technology replacements, upgrades, and enhancements
- Curricular materials
- Furniture, fixtures and equipment (including classroom safety resources)

4 What will the “District Additional Assistance Override” (Capital Override) cost me?

For your personal tax impact, check your tax bill. The owner of an average home in the district (limited property value of \$284,480) would continue to pay an estimated annual tax amount of \$118.57 a year. This equals \$41.684 per \$100,000 of assessed limited property value.

5 Will I have to pay additional taxes if the District Additional Assistance Override continuation passes?

No, the estimated secondary tax rate for the proposed District Additional Assistance Override is approximately equal to the existing secondary tax rate for the current District Additional Assistance Override.

6 How much does the district have to cut its budget if the “District Additional Assistance Override” (Capital Override) fails?

If the override is not continued, the district will need to reduce its capital budget by approximately \$2.9 Million per year.

7 How will the override appear on my ballot?

On the ballot it is referred to as a “BUDGET INCREASE”
