Simplified Steps to Use Your Member Portal

Go to navitus.com/members or scan the QR code* to access the member portal. Register if you haven't already. If you use the Navitus mobile app, sign in with the same username and password—no need to register again.

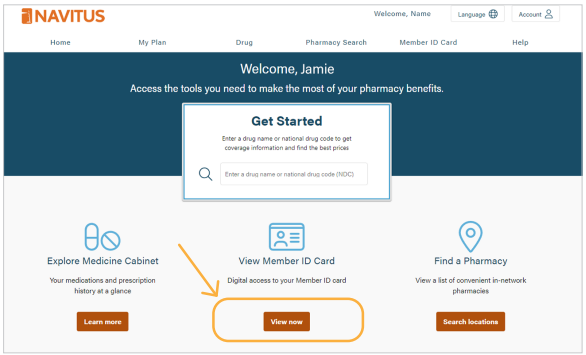

Once signed in, you can:

- View your pharmacy ID information
- Search drugs for coverage details
- Check prices and find pharmacies
- Track your medication history

Access Your Member ID Card

- On the landing page, click **View Now** to see your pharmacy ID details.
- This digital card shows the main information you need to fill a prescription.
- It may look different from your physical ID card and does not replace your health plan card.
- If you have a card that combines health and pharmacy info, keep using that card for doctor visits.

You can also **Save as PDF** and print this information if you want a copy.

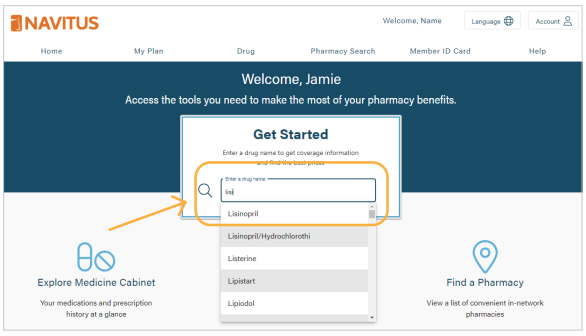

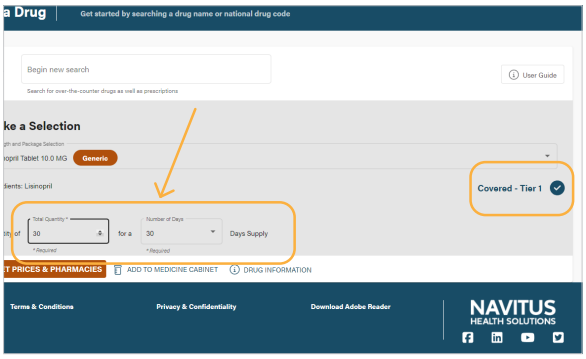

Perform a Drug Search

Enter at least the first letter of the drug name in the **Get Started** box.

- Select the drug from the dropdown list
- Choose dosage form, strength, and brand or generic
- Adjust quantity and days' supply

The coverage indicator will show if the drug is covered and at what tier.

Find Drug Prices and Pharmacy Locations

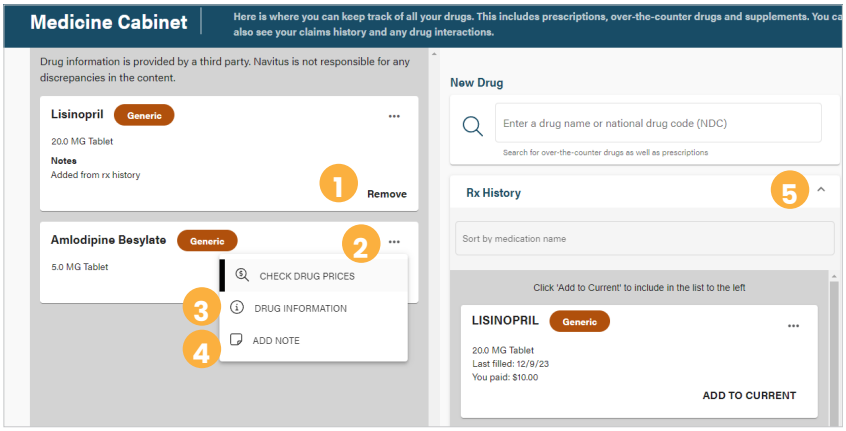

From the Drug Search result, click **Get Prices & Pharmacies**. Search by city, state, zip code or current location and adjust the search radius, if needed. A list of available pharmacies, the price of the drug at that location, and an interactive map will appear.

- Refine your search with **Sort** and **Filter Results** options
- Click on a pharmacy for more details, including hours and additional services provided
- Click **Add to Favorites** to save this pharmacy selection to your member profile
- You can also search for pharmacy locations from the member portal homepage, but those results will not include specific drug coverage details

Maintain Your Virtual Medicine Cabinet

Click **Learn more** under **Explore Medicine Cabinet** to see your prescription, medication and supplement history. Your prescriber doesn't maintain this list, but you can use it to conveniently track your drugs and check side effects.

Make the Most of Your Medicine Cabinet:

1. No longer taking a medication? Click **Remove**.
2. Want to check prices on that drug? Click the three dots to open a new menu window. Click **Check Drug Prices**.
3. Curious about side effects? Click the three dots to open a new menu window. Click **Drug Information**.
4. Need to leave a note for yourself about a medication? Click the three dots to open a new menu. Click **Add Note**.
5. Want to add a prescription? Click the drop-down menu for Rx History.

*The QR code may identify your IP/device information. However, your personal and health information is strictly confidential and will not be captured.

Information is subject to change without notice. This is not a guarantee of benefits. Your coverage is based on your plan benefit.
If you have copay assistance it may affect your deductible and/or your maximum out of pocket amount. Coverage and cost sharing may vary if this is a preventive service.
