

Oct 7, 21, 28 | Nov 4

Art with a Twist: Join us for an exciting blend of creativity and discovery! In this club, we'll combine the world of art with the wonders of science. From brushes to circuits to nature, you'll explore innovative ways to create art. Build your very own spin art machine, experiment with fizzing paint, craft vibrant masterpieces using natural pigments, and trick your brain with unbelievable optical illusions. Whether you're a budding artist or a future scientist, this club has something for everyone!

Freaky Physics: Get ready to freak out with physics as you examine forces, see how physics and engineering are related as you compete in a tower building challenge, create a circuit to power a cool motorized “bristle-bot”, and explore the marvels of magnetism

Nov 11, 18 | Dec 2, 9

Hocus Pocus: Amaze and astound your friends with some awesome science magic! Master the art of illusion and discover the scientific secrets behind these tricks. Use your newfound skills to make an egg sink or float on command, use the power of inertia to perform amazing tricks, make a liquid disappear, suspend water in mid-air, and shock your family and friends when you cut a hole in a piece of copy paper big enough to step through.

Jan 13, 20, 27 | Feb 3

- Class meets Wednesdays (3:30 - 4:30 pm)
- Tuition: \$99 for each 4-week theme
