BASIC SCOPE AND NEEDS OF THE PROJECT: Pursuant to Education Code sections 17250.10 et seq., the Selma Unified School District seeks a design-build entity to produce final designs for, and construct, the modular building for the wrestling room project at the Selma High School, located at 3125 Wright Street, Selma, California 93662 (the “Project”). The Project will be constructed on the Southeast corner of the football stadium on the campus, as set forth in the attached Exhibit A. The Project will be a 5,665 square foot single-story modular building comprised of one wrestling room to fit two wrestling mats and circulation area around mats, one equipment area room open to the wrestling space, an entry/lobby area open to wrestling area, one mat storage room (with doors to the exterior), boys and girls restrooms servicing the building and the practice fields on the south of the building, two separate weigh-in rooms, one data room, one custodian room, and one electrical room. The modular building will also contain one exterior and two interior drinking fountains. As set forth herein, the design-build entity will be responsible for the final design and transmission of their final design to the Division of the State Architect (“DSA”), and for obtaining final DSA approval. No construction work shall be performed until the design-build entity receives written approval of the plans, as to the safety of design and construction, from the DSA.

DESIGN-BUILD ENTITY PREQUALIFICATION: From the design-build entities that submit statements of qualifications, the District will determine which entities shall be prequalified, or short-listed, for this Project. **Only design-build entities that are prequalified or short-listed pursuant to Education Code section 17250.25 will be allowed to submit bids or proposals.**

A design-build entity will not be eligible to be prequalified or short-listed if the entity, or any consultant or contractor to the entity, participated in the preparation of this Request for Qualifications or the Request for Bids or Proposals (including the District’s requirements for the design [the “Design Requirements” or “Bidding Documents”]) for the Project.

Any statement of qualifications submitted for this Project must use the template attached to this Request for Qualifications as Exhibit B, and must be certified under penalty of perjury by the design-build entity and its general partners or joint venture members.

The following non-price-related factors will be considered by the District when evaluating qualifications: Technical design and construction expertise, acceptability of safety record,

possession of valid design professional and contractor licenses (including a Class “B” California contractor license).

A design-build entity shall not be prequalified or short-listed unless the entity provides an enforceable commitment to the District that **the design-build entity and its subcontractors at every tier will use a skilled and trained workforce** to perform all work on the Project that falls within an apprenticeable occupation in the building and construction trades, pursuant to Education Code section 17250.25(c).

EXPECTED COST RANGE OF THE PROJECT: The District expects an estimated price of Three Million Eighteen Thousand Six Hundred and Forty-Five Dollars (\$3,018,645.00) for this Project.
