

I am an extroverted introvert who loves to be at home but also NEEDS to be out and around people to feel connection. I enjoy working on my house (I'm a self proclaimed DIYer!) hanging out with my two dogs and enjoying time with family.

Being from a mining family, I moved around a lot as a child which helped me become extremely adaptable in many situations. I'd like to believe I am a hard worker who isn't afraid to "do the dirty work" if it means something good will come out of it!

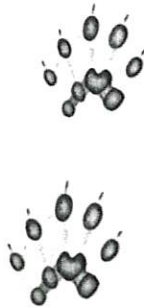

I have a husband and a lovely 16 year old daughter who both are the loves of my life! I fell in love with teaching while teaching preschool

MY BACKGROUND

- Preschool teacher for 2 years
- Math teacher for 14 years
