Subject: DMV History Report

Rob,

We have recently learned that the district has sent some of our members a link from MRI/Trusted Employees to complete a driving history report. This would be a significant change in their terms and conditions of employment. This letter is formal notice to the School District that we object to any district plan to unilaterally implement this process. This letter is a formal demand for the district to cease any action regarding this process and to negotiate on this issue.

Thank You

Mike Gilbertson
