

All core courses are assigned by administration for the SY27 school year. Course progression is subject to change.

Those needing a science beyond Physical Science will choose during counselor course selection appointments with electives. All Dual Enrollment courses must be requested during course selection. Students must meet DE requirements and proof of enrollment required before changes are made.

Students may take more than 1 science class at a time. For example, a student may take Chemistry AND AICE Marine at the same time. Students must be enrolled in or have completed Chemistry to take AICE Marine, AP Biology, or AICE Environmental Science. Please use the following guidelines to determine placement in those additional science classes:

- 1. AICE Marine, AICE Environmental, AP Biology, Forensics Science Honors require the completion of Biology and the completion or current enrollment in Chemistry. Students should be currently earning an A or B in current science class.**
- 2. AICE Chemistry and AICE Physics require the completion of Honors Chemistry and Honors Algebra 2 with either an A or B.**
- 3. Anatomy/Physiology Honors and Marine Science require the completion of Biology and currently earning an A, B, or C in current science class.**
